Multinational Enterprises, Innovative Strategies and Systems of Innovation John Cantwell, José Molero Zayas, 2003

This volume explores the extent to which multinational enterprises MNEs are decentralizing the creation of new technological capabilities to various countries

The book contends that technological strategies and innovation activities undertaken by firms are a critical part of the increasing internationalization of economic activity and that MNEs are the main actors for these changes

It goes on to explain that MNEs must now effectively manage new technological assets in order to cope with the extensive changes in the nature of international competition
