Strategic Job Jumping Julia Hartman,1997 We all know the horror stories caused by downsizing mergers and the lack of security in today s jobs Finally instead of fearing job loss and change there s a new book that teaches how to job jump in order to find jobs you truly love Job jumpers don t jump just for the sake of jumping their main goal is to find work that maximizes their professional potential Job jumpers with broader industry perspectives numerous contacts confidence in their convictions and a shorter time frame in

which to make a difference transform companies faster than loyal employees do says Julia Hartman a job jumper and author

of Strategic Job Jumping 50 Very Smart Tactics for Building Your Career Hartman believes change is the key to growth both professional and personal If you haven't managed change personally you're unlikely to be capable of doing it for an employer Loyal employees in leadership positions sometimes take the no risk and no reward business strategy trying to protect their jobs That's not true for a job jumper In her book Hartman explains that those employees that have jumped within an industry are well qualified to predict the future of the industry and understand how a company can change and prosper Because job jumpers have above average training and an industry perspective they know how to change a company by embracing winning strategies and by providing an effective short term outlook in which to make a difference all of which are extremely beneficial If your company is ready for positive change then hire a job jumper an industry specialist with a 360 degree view Job jumpers know how to transform themselves and consequently help transform a company to grow evolve and prosper Jumpers can transform their companies faster than long term loyal employees And they are able to take intelligent risks because they have the objective choice to risk their jobs on changing the status quo says Hartman **The Sinews of War**
