Dogs on Instagram @dogsofinstagram,2016-08-02

From the popular Instagram profile comes this collection of adorable dog photos to warm the hearts of dog lovers everywhere Dog lovers are a passionate bunch and Instagram is the perfect platform for expressing their devotion The curators behind dogsofinstagram channel this passion perfectly in this delightful book a must have collection featuring more than four hundred of the best crowdsourced dog photographs from their wildly popular feed For dog lovers by dog lovers this eclectic compilation celebrates the full spectrum of things to love about our four legged friends [Instagram®](#) Rosa Waters,2014-11-17 Instagram has had huge success in just a short time With a popular website and smartphone app Instagram has become one of the best ways to share pictures with friends Instagram however was once just the idea of two men Kevin Systrom and Mike Krieger Together these two men have taken Instagram to new heights and made it one of the most popular tech companies Discover their story Find out how Instagram grew to what it is today *Instagram Secrets* Alexander Vinci,2021-09-04 Do you want to know how Instagram really works and what mindset you must have to succeed in this platform If you just starting reading through this guide and are thinking that your business isn t an eCommerce business and so Instagram isn t the place for you think again Remember the key proposition that Instagram brings is visualization Consider these examples 1 You re a real estate agent and want to highlight the newest mountain home that you have on the market 2 You are a world class hospital that just released a new mother s ward with beautiful birthing and stay suites with a spa like feel 3 You re a restaurant owner and want to highlight your savory and mouthwatering specials each week The above examples are all situations where nothing is actually being transacted online but the business is building brand awareness and drumming up interest so that the consumer will visit their website or pick up the phone to learn more The mysterious Instagram algorithm While we ll never know exactly how Instagram has weighted the various data points that they put into their algorithm we do know that Instagram s back end technology now focuses on relevancy serving up the posts that are most likely to relate to certain users based on their activity on the site So every time a user clicks through a post or spends a certain amount of time looking at a certain influencer Instagram is capturing that data in some way and building it into their engine to ensure that posts that users won t care about are less likely to show up in their feed We do know however that Instagram is looking at the following Timely content This is all about recency meaning if a user hasn t logged in for a while they won t have to scroll through outdated and no longer relevant posts They ll be shown timely content that matters to them Interest This is really the secret sauce as Instagram is paying attention and will serve content that it believes the user will be interested in Relationships Instagram knows what photos users tag and where they comment So if a user has interacted in some way with certain brands in the past they are far more likely to be served content from that brand or similar brands in the future For marketers this is a great thing It means that as Instagram learns more about your brand your posts and advertisements are more likely to get in front of your niche or target audience A few notes about Instagram Shopping With the release of Instagram Shopping in late 2016 Instagram literally turned their platform into an online marketplace While it
