

# the metrics that matter

## performing videos

will show you the details for that specific video: its total views, its completion rate (how many people watched your video) to how you compare to other creators, how many new followers you gained from the video, and where your views came from (the 'for you' page, for example.)

When it comes to video analytics, look at your best-performing videos and your worst-performing videos. What's the difference? Do your viewers tend to watch videos all the way through, but not the first 30 seconds? Or maybe your viewers do prefer short because it's so valuable and you've seen that until the end.

Look at your analytics weekly and monthly on your best and worst performing videos and pay attention to completion rate, shares, and comments.
