You Should Quit Reddit Jacob Desforges, 2023-02-21 In recent years countless books articles and documentaries have addressed the negative effects that social media platforms have wrought on their users and society However these former works are incomplete nearly no attention has been paid to Reddit one of the most popular websites in the world Reddit is certainly unique among social platforms but its potential for addiction and darker side of nefarious activity should absolutely not be understated Additionally nearly no actionable advice has been provided to users of these platforms The audience is told that these websites and apps are harming their mental health wasting their time and that they are addictive which would logically make the task of quitting rather difficult but then provided zero guidance on how to disconnect from them Over 200 000 users gather on Reddit's r/NoSurf community to discuss reducing their internet use the forum is filled with reports of people who want to quit Reddit but find themselves psychologically compelled to return to the site over and over For moderate to heavy users of these platforms quitting is clearly not so simple *You Should Quit Reddit* is a paradigm shift in the genre Jacob Desforges was a Reddit user of over a decade and a self admitted Reddit addict who spent on average around three hours daily on the site Not only is this the first book investigating Reddit's flaws as a platform but it is also written from the perspective of someone who experienced firsthand the struggle that comes with quitting these addictive platforms This book therefore also provides readers with the practical advice tools and techniques needed to shatter the cycle of digital addiction enabling them to quit visiting Reddit and other time wasting websites for good so they can effectively reclaim their time to use in a more intentional manner

they reflect its role as an epicenter of geek culture *Gender, Masculinity and Video Gaming* Marcus Maloney, Steven Roberts, Timothy Graham, 2019-11-23 This book examines gender attitudes in Reddit's popular video gaming community subreddit r/gaming. Video gaming has long been understood as a masculinised social space and while increasing numbers of girls and women now engage in the pastime boys and men remain the predominant social actors. Furthermore the gaming community has been widely identified as a prime case study in broader concerns around toxic masculinity and gendered online harassment. However there is also underexamined evidence of a growing movement in the community coming forward to voice its collective opposition. Utilising an innovative combination of computational and qualitative methods the research undertaken here exposes this fuller picture revealing significant contestation and a spectrum of attitudes that mark out this popular gaming community as a battleground for gender in equality. Students and scholars across a range of disciplines including gender studies media studies cultural studies sociology games studies and computer sciences will find this book of interest.
