Miller,1966 BOMM is a system of programs which causes an electronic computer to perform arithmetic operations on time
series In devising the system the main objectives were 1 to enable a wide variety of data formats to be accepted without
recoding 2 to allow gross errors to be removed automatically from the data 3 to provide a considerable variety of arithmetic
operations and leave the user free to choose the order in which they are applied and 4 to allow further processes to be
incorporated into the system The present User s Guide provides the information needed by the user in operating the system
More complete details including flow diagrams of the programs are given in a longer work entitled Manual of the BOMM
