Authentic New Orleans Kevin Fox Gotham, 2007-12-01 Honorable Mention for the 2008 Robert Park Outstanding Book Award given by the ASA's Community and Urban Sociology Section Mardi Gras jazz voodoo gumbo Bourbon Street the French Quarter all evoke that place that is unlike any other New Orleans In *Authentic New Orleans* Kevin Fox Gotham explains how New Orleans became a tourist town a spectacular locale known as much for its excesses as for its quirky Southern charm Gotham begins in the aftermath of Hurricane Katrina amid the whirlwind of speculation about the rebuilding of the city and the dread of outsiders wiping New Orleans clean of the grit that made it great He continues with the origins of Carnival and the Mardi Gras celebration in the nineteenth century showing how through careful planning and promotion the city constructed itself as a major tourist attraction By examining various image building campaigns and promotional strategies to disseminate a palatable image of New Orleans on a national scale Gotham ultimately establishes New Orleans as one of the originators of the mass tourism industry which linked leisure to travel promoted international expositions and developed the concept of pleasure travel Gotham shows how New Orleans was able to become one of the most popular tourist attractions in the United States especially through the transformation of Mardi Gras into a national even international event All the while Gotham is concerned with showing the difference between tourism from above and tourism from below that is how New Orleans distinctiveness is both maximized some might say exploited to serve the global economy of tourism as well as how local groups and individuals use tourism to preserve and anchor longstanding communal traditions

N. Ross, Deanne E. B. Ross, 2008-09-22 Two and a half years after the devastation of Hurricanes Katrina and Rita New Orleans and south Louisiana continue to struggle in an unsettled gumbo of environmental social and rebuilding chaos Citizens await the fruition of four successive recovery and reconstruction planning processes and the realization of essential infrastructure repairs Repopulation in Orleans Parish has slowed considerably the parish remains at best two thirds of its former size thousands of former residents who wish to return face barriers of many kinds Heroic efforts at rebuilding have occurred through the efforts of individual neighborhood associations and voluntary associations who have attempted to address serious losses in affordable housing and health care services Walking to New Orleans traces how a dominant but paradoxical model of the relation between the human and natural worlds in Western culture has informed many environmental and engineering dilemmas and has contributed to the history of social inequities and injustice that anteceded the disasters of the hurricanes and subsequent flooding It proposes a model for collaborative recovery that links principles of ethics and engineering in which citizens become active ongoing participants in the process of the reconstruction and redesign of their unique locus of habitation Equally important it gives voice to the citizens and
