Source Book in Ancient Philosophy Charles Montague Bakewell,1907 From the preface Every one who has attempted to introduce students to the study of Philosophy by way of its history must have felt the need of having in compact form the most significant documents upon which the interpretations of that history are based in order that it may be possible from the

first to bring the student into direct contact with the sources so far at least as that may be done through the medium of translations The primary aim of this book is to supply this need It is intended to serve either as a companion volume to any History of Philosophy that may be adopted as a text book or as a substitute for such a history where the instructor may prefer through his own lectures to give his own interpretation of this philosophical movement It is hoped that the book may also as a reference work prove of value to students of philosophy generally as well as to all who are interested in the development of ancient thought PsycINFO Database Record c 2008 APA all rights reserved Source Book in Anthropology Alfred Louis Kroeber, Thomas Talbot Waterman, 1920 **A Source Book in Mathematics** David Eugene Smith, 1929 The field of number The field of algebra The field of geometry The field probability Field of the calculus functions quaternions **Source Book for Social Psychology** Kimball Young, 1927
