Concise International And European Ip Law 2nd Edition Concise Ip:

European Intellectual Property Law Annette Kur, Thomas Dreier, Stefan Luginbuehl, 2019-12-27 The second edition of this popular textbook has been thoroughly revised and updated in order to reflect the recent extensive changes in European IP legislation. Providing an in depth examination of the core areas of IP law from copyright, patents and trademarks through to the protection of plant varieties and industrial design, it is perfectly pitched to guide the reader through the complexities of the European IP system.

Concise International and European IP Law Thomas Cottier, Pierre Véron, 2011 Beyond specificities of each intellectual property right, some principles and rules are common to all or several intellectual property rights. Therefore, certain statutory provisions enacted at European or international levels are of great importance for all or various intellectual property rights. Intellectual property is one of the branches of law where the international harmonization started the earliest thanks to international conventions e.g. the Paris Convention of 20 March 1883 for the Protection of Industrial Property. Harmonization is still at work today e.g. with the Agreement on Trade related Aspects of Intellectual Property Rights and has been carried on to a high degree at a regional level thanks to the secondary legislation of the European Union especially thanks to directives and regulations. This volume aims to offer the reader a rapid understanding of some of these European or international texts which deal with some general and jurisdictional issues and are very important from a practical point of view. Key features include: An article by article commentary on the relevant international treaties and European instruments. It is intended to provide the reader with a short and straightforward explanation of the principles of law to be drawn from each provision. Editors and authors are all prominent specialists, academics and practitioners in the field of international and European IP law.

Concise International and European IP Law TRIPS Paris Convention European Enforcement and Transfer of Technology is part of Concise IP, a series of five volumes of commentary on European intellectual property legislation, edited by Thomas Dreier, Charles Gielen and Richard Hacon. The formula of this series is based on the successful German and Dutch formula KurzKommentar and Tekst en Commentaar. The five volumes cover Patents and related matters, Trademarks and designs, Copyrights and neighbouring rights, IT and a general volume including jurisdictional issues.
