Computing Tomorrow Computing Tomorrow:

Tomorrow's Learning: Involving Everyone. Learning with and about Technologies and Computing Arthur Tatnall, Mary Webb, 2018-01-25 This book constitutes the refereed post conference proceedings of the 11th IFIP TC 3 World Conference on Computers in Education WCCE 2017 held in Dublin Ireland in July 2017 The 57 revised full papers and 10 short papers were carefully reviewed and selected from 116 submissions during two rounds of reviewing and improvement The papers are organized in the following topical sections futures of technology for learning and education innovative practices with learning technologies and computer science education and its future focus and development Also included is The Dublin Declaration which identifies key aspects of innovation development successes concerns and interests in relation to ICT and education

Computing Tomorrow Ian Wand, Robin Milner, 1996-07-13 First published in 1996 this collection of essays by distinguished computer scientists celebrates the achievements of research and speculates about the unsolved problems in computer science that require future investigation Since the subject stretches from technology in the field through engineering design to foundations in mathematics there is a wide variety of concerns and approaches among the authors The book's purpose is to show that long term research in computer science is crucial and that it must not be driven solely by commercial considerations The authors do not shirk the difficult aspects of their topics but try to expose them in the simplest terms possible without diluting them in order that the reader can understand the issues involved Thus the book also represents a broad overview of much of the state of knowledge and future expectations of computer science illustrating that it is much more than a technology and it is a fully fledged and growing intellectual discipline with its own engineering principles and its own scientific concepts and models It will be stimulating reading because it represents the views of prominent authorities who have had a significant impact on the direction of innovation research and development in computer science
