Comunicación no violenta Marshall Rosenberg, 2022-03-31 La Comunicación No Violenta CNV se basa en las habilidades relativas al lenguaje y la comunicación que refuerzan nuestra capacidad de seguir siendo humanos incluso en las condiciones más extremas No se trata de nada nuevo hace siglos que se conocen todos los elementos de la Comunicación No Violenta El objetivo es que recordemos algo que ya sabemos de qué modo hemos de relacionarnos los seres humanos y que vivamos de una manera que manifieste abiertamente este conocimiento La Comunicación No Violenta nos orienta para reestructurar nuestra forma de expresarnos y de escuchar a los demás En lugar de obedecer a reacciones habituales y automáticas nuestras palabras se convierten en respuestas conscientes con una base firme en un registro de lo que percibimos sentimos y deseamos Nos ayuda a expresarnos con sinceridad y claridad al mismo tiempo que prestamos una atención respetuosa y empática a los demás En cualquier interacción pasamos a tener en cuenta tanto nuestras necesidades más profundas como las ajenas La Comunicación No Violenta nos enseña a observar cuidadosamente y a detectar conductas y situaciones que nos afectan Con ella aprendemos a identificar y a expresar con claridad lo que esperamos en concreto de una situación dada El método es simple pero su poder de transformación es extraordinario

depredación colonizadora con que América Latina es inscrita en el desarrollo cultural de Occidente hasta llegar a las más recientes y sutiles formas asumidas por la violencia de Estado pasando por las instancias de imposición de modelos culturales y económicos que en las distintas pocas impactaron radicalmente las culturas criollas y vernáculas. América Latina ha sufrido así históricamente las consecuencias de una violencia fundacional que la condenara a una posición periférica con respecto a sistemas globales cuyos centros han difundido en sus correspondientes áreas de influencia la racionalidad de su propia reproducción cultural política y económica. De esta manera la trama social que resultara de la matriz colonialista registró desde el comienzo las huellas imborrables de la violencia que se manifestara tanto a nivel racial como económico tanto en lo referido a las políticas de género como en lo relacionado con la distribución geocultural del poder en todos sus niveles. Las dolorosas repúblicas hispanoamericanas de que hablara Martí se han debatido desde entonces contra las formas naturalizadas de la violencia de la exclusión y el autoritarismo, la miseria interna y la depredación imperialista, la penetración cultural, las intervenciones políticas siempre amparadas en la retórica legitimadora que las clases dominantes esgrimieran en cada caso para perpetuar su poder. El presente volumen que compila trabajos que fueron presentados y discutidos en la Segunda Conferencia Internacional de Estudios Culturales Latinoamericanos que se llevara a cabo en la Universidad de Pittsburgh en marzo del año 2000 tiene como foco principal una articulación específica en torno al tema de la violencia contemporánea la que analiza los cruces y formas específicas en que la violencia se manifiesta teniendo como escenario principal los centros urbanos de América Latina y las modalidades a partir de las cuales el fenómeno de la violencia es recogido y re-presentado por los medios de comunicación de masas tanto como por la cultura popular, el arte, la literatura y otras formas de discurso, letras y la alta cultura. The theme of violence is natural to the history of Latin America and therefore it is endless in any of its multiple material and symbolic manifestations from its colonial origins to the present. At a continental level the praxis and discourse of violence can be traced back to the spread of the colonising voracity that conditioned Latin America within the cultural development of the West followed by the most recent and subtle forms assumed by state violence including the instances of imposition of cultural and economic models that at the different times radically impacted the Creole and vernacular cultures. Thus Latin America has historically suffered the consequences of a founding violence which condemned it to a peripheral position in relation to global systems which centres have spread in their corresponding areas of influence the rationality of their own cultural, political and economic replication. In this way the social fabric resulting from the colonialist matrix has recorded from the beginning the indelible traces of violence that are displayed both at racial and economic levels both in terms of gender policies and in terms of the geocultural distribution of power at all levels. The painful Spanish American republics of which Martí spoke have since fought against the normalisation of the violence of exclusion and authoritarianism, the internal misery and imperialistic greed, the cultural colonisation and political actions always condoned by a legitimising rhetoric that the ruling classes wielded in every instance to perpetuate their power. This volume which

compiles papers that were presented and discussed at the Second International Conference on Latin American Cultural Studies to be held at the University of Pittsburgh in March 2000 has as its main focus a specific articulation around the topic of contemporary violence it analyses the intersections and specific ways in which violence presents itself in the urban centres of Latin America as its main scenario and the modalities from which the phenomenon of violence is recorded and represented by the mass media as well as popular culture art literature and other forms of literary discourse and high culture

Resolver los conflictos con la comunicación noviolenta Marshall B. Rosenberg, 2013-03-01 En este libro a través de su conversación con Gabriele Seils Rosenberg nos muestra su amplia experiencia trabajando con personas así como la extraordinaria simplicidad de su método. Los temas que abordan son entre otros cómo podemos aprender a escucharnos y a entendernos mejor a nosotros mismos que lleva a las personas y a los grupos al desencuentro o cómo podemos restablecer de nuevo el contacto. Las respuestas de Marshall Rosenberg ponen de manifiesto que es imprescindible tener la valentía de escuchar la historia del otro. Así se puede liberar el potencial que cada encuentro encierra en sí mismo con respeto curiosidad y compasión. Marshall B. Rosenberg conocido mediador internacional enseña a hacer de cada su modelo de Comunicación NoViolenta en todo el mundo. Cuando se le pregunta por las causas de la violencia responde los conflictos y la violencia aparecen allí donde las personas sienten que se limitan sus necesidades. Las personas tienen que aprender que en una discusión se pueden tener en cuenta las necesidades del otro sin que por ello se pierda de vista lo que uno mismo necesita. La Comunicación NoViolenta es algo más que una estrategia de comunicación eficaz. Es un modo de vida que permite abordar determinadas situaciones de manera que todos los involucrados salgan beneficiados.
