Civil Society Edyta B. Pietrzak, 2024-08-14 Civil Society Ideas Interpretations Transgressions is essential to learning about the place and importance of civil society in creating and maintaining a liberal democracy Edyta B Pietrzak takes us on a journey of interpretation addressing the critical role the idea of a civil society has for our world and how it has evolved over time She uncovers the meanings of theories and clarifies ways of thinking that are sensitive to peculiarities intermittences contrasts or unique things Part I introduces the theory and key terms What is the public sphere and how can it be understood Is it synonymous with civil society or does it only establish its area of activity It aims to illustrate how social life has changed over centuries and its basic components have been experienced and interpreted in various ways Part II represents a collection of interpretations and approaches to the idea of civil society Pietrzak begins with the traditional Republican interpretation continues with liberal Hegelian sociological and historical materialistic interpretations and concludes with modern communitarian and neo liberal concepts Part III reminds us that civil society is not an abstract concept nor does it exist in a vacuum or out of context When describing the process of change and transformation in civil society reference must be made to transgressions Here we learn about issues such as transnational civil society citizenship and diversity feminist citizenship and civil society in the era of the Anthropocene to name a few

On the Dignity of Society F Russell Hittinger, 2024-05 In this collection of essays Francis Russell Hittinger shows that Catholic social teaching is not only an articulate defense of the

dignity of the human person but perhaps more fundamentally an elucidation of the dignity of society Indeed Hittinger enables us to see that one cannot properly defend the dignity of the person without also showing the dignity of societies in which human persons as naturally familial political and ecclesial animals seek their own perfection in communion with others Hittinger has been a renowned scholar of Catholic social doctrine for some time now and the essays presented here are the fruit of his mature thinking on the topic over the course of many years As each chapter shows Hittinger s historically important body of work on Catholic moral and social philosophy and theology is rooted in natural law theory and Thomistic philosophy but also animated by St Augustine s thought and thus consistently sensitive to historical contexts and arenas for moral and theological disputation These magisterial essays therefore integrate historical studies of the development of Catholic social teaching with systematic exposition of the theological coherence of that tradition while also articulating the essential role of philosophy and natural law within both The volume is divided into three parts The first part is comprised of six essays on Catholic social teaching the second part is made up of six essays on natural law and its role in social doctrine and the third part includes two essays discussing the first principles of the Church s teaching on social issues This collection will no doubt become a standard in the field of scholarship on Catholic social teaching

Reassessing the Liberal State
Timothy Fuller, John Hittinger, 2001 This collection of essays revisits Jacques Maritain s book *Man and the State* the University of Chicago Walgreen lectures of 1949 and critically engages its greatest themes and arguments the character of the modern state and its relation to the body politic the state s functions and claims the basis of authority the foundation of human rights and natural law structural pluralism Church and State relations national sovereignty and the prospects for world government The contributors address whether Maritain has successfully accomplished his project of engaging modernity from the perspective of a 20th century disciple of Thomas Aquinas whether his reformulations and revisions of the modern state are philosophically sound and prudent and whether his developments of Aristotle and Aquinas are faithful to the sources Maritain drawing upon the philosophy of Aquinas represents a significant achievement he provides a viable reassessment of the liberal state uniting Thomistic and Aristotelian traditions with the human rights thrust of modern political philosophy In short Maritain reassesses the liberal state in light of ancient and medieval political traditions seeking to find what is true enduring and practical in the modern liberal state while criticizing its excesses and reconceptualizing its philosophical foundations The contributors to this collection find Maritain has achieved much in the accomplishment of this project Some continue this project by applying Maritain s philosophy to contemporary issues Other contributors find it helpful however to compare Maritain to other contemporary political philosophers and to question his use of the philosophy of Aquinas Maritain s political philosophy and *Man and the State* in particular is worth continued study Although his influence was greatest in the 1950s and 1960s and his philosophy has been displaced by new trends his work shows a remarkable resilience and relevance to the issues of the day offering a deeper philosophical foundation and more flexible set

of tools for analysis than currently provided Timothy Fuller professor of political science and acting president of Colorado College is the editor of *Leading and Leadership* and *The Voice of Liberal Learning* Michael Oakeshott on Education John P Hittinger is professor of philosophy at the United States Air Force Academy and coeditor of *Liberalism at the Crossroads* An Introduction to Contemporary Liberal Theory and its Critics Contributors J Budziszewski Joseph M DeTorre Gregory Doolan Desmond FitzGerald Timothy Fuller John R Goodreau Catherine Green William Haggerty James G Hanink Jeanne M Heffernan John P Hittinger Russell Hittinger Richard Lemp V Bradley Lewis Nicholas C Lund Molfese John G Trapani Jr Deborah Wallace Henk E S Woldring and Michael Woodward

Nature, Environment and Culture in East Asia

,2013-07-15 Since in the current global environmental and climate crisis East Asia will play a major role in negotiating solutions it is vital to understand East Asian cultural variations in approaching and solving environmental challenges in the past present and future The interdisciplinary volume *Nature Environment and Culture in East Asia The Challenge of Climate Change* edited by Carmen Meinert explores how cultural patterns and ideas have shaped a specific understanding of nature how local and regional cultures develop ed coping strategies to adapt to environmental and climatic changes in the past and in the present and how various institutions and representatives might introduce their ideas and agendas in future environmental and climate policies on national levels and in international negotiating systems *Orphans of Islam* Jamila Bargach,2002 *Orphans of Islam* portrays the abject lives and excluded body of abandoned and bastard children in contemporary Morocco while critiquing the concept and practice of adoption which too often is considered a panacea Through a close and historically grounded reading of legal social and cultural mechanisms of one predominantly Islamic country Jamila Bargach shows how the surplus bastard body is created by mainstream society Written in part from the perspectives of the children and single mothers intermittently from the view of adopting families and employing bastardy as a haunting and empowering motif with a potentially subversive edge this ethnography is composed as an intricate open ended and arabesque like evocation of Moroccan society and its state institutions It equally challenges received sociological and anthropological tropes and understandings of the Arab world

Civil Society, Democratization and the Search for Human Security Duncan McDuie-Ra, 2009 This book examines the relationship between civil society and human security in the Indian state of Meghalaya part of the region known as Northeast India Civil society has been revived over the last two decades and is now one of the key concepts in development politics and international aid The concept has gained particular significance as part of attempts to analyse and instigate grassroots democratisation through widespread political participation This is seen as enabling a broader range of issues to be politicised and made a part of political agendas at the local national and global levels However there are few studies that examine the constraints on civil society at the local level even in contexts where

civil society may appear to be active and vibrant Those studies that do exist tend to focus on the constraints coming from the state overlooking the constraints that come from within civil society itself During the same period human security has gained prominence as a challenge to state centric conceptions of security and as an alternative approach to development by focusing on the security and insecurity of groups and individuals The concept has been taken up by international organisations development agencies and bilateral donors as a more effective way to understand the difficulties people face in their everyday lives that go beyond conventional categories and indicators In order for those experiencing insecurity to identify and contest the causes of insecurity participation in civil society is necessary **Fragmented Civil Society** Snigdha Ali,2000 **Civil Society from Abroad** Grzegorz Ekiert,2000 Kosovo Thanos Veremēs,Euangelos Kōphos,1998 Greece should be involved in facilitating an EU effort to prevent another conflict in the Balkans Wilem van Eekelen The whole of Southeastern Europe should move forward in a multilateral agreement so that the smaller problems of the area will be resolved Richard Shifter
