Comics Beyond Text and Image Benjamin Fraser, 2025-08-08

Comics Beyond Text and Image conceptualizes comics as bodies exploring the substance and the many movements and expressions of comics first and foremost in terms of corporeality The book centers on the metaphor of the comics body as a way of opening up our understandings of what comics do It begins from the position that narrative in comics is corporeal expressed in and through the visual bodies into which the page can be divided analytically and from the interaction of the human body with the comics body Drawing on the philosophy of Baruch Spinoza the author argues for the primary role of visual narration over textual narration develops a theory of the comics text as a cohesive and variegated cartography and shows how thought is expressed in the extensive space of the comics page This theory is then applied in snapshots of individual comics works that each in their own way continue the philosophical discussions of embodiment This book moves beyond traditional modes of narration or narrative and will appeal to students and scholars of comics studies as well as to

those thinking about visual narrative more broadly and to scholars of Spinoza and Deleuze [Daytripper \(2009-\) #5](#) Gabriel Ba, Everything changed for Bras de Oliva Domingos when he visited his grandparents countryside ranch at 11 years old He began to see the world in a whole new light but how long does that light last before extinguished once again **Absolute Daytripper** Gabriel Ba,Fabio Moon,2020 The Eisner Award winning Daytripper follows Bras de Olivias Dominguez during different periods in his life each with the same ending his death Now available in this oversize slipcase Absolute edition complete with concept designs scripts and other behind the scenes material Daytripper follows the life of one man Bras de Olivias Dominguez Every chapter features an important period in Bras life in exotic Brazil and each story ends the same way with his death And then the following story starts up at a different point in his life oblivious to his death in the previous story and ends with him dying again In every chapter Bras dies at different moments in his life as the story follows him through his entire existence one filled with possibilities of happiness and sorrow good and bad love and loneliness Each story rediscovers the many varieties of daily life in a story about living life to its fullest because any of us can die at any moment Collects Daytripper 1-10 [Daytripper \(2009-\) #9](#) Gabriel Ba, Bras is going through one of those days that seems like a lifetime when so many things happen and change so fast and so dramatically that he can't keep track of what the hell is going on Can he figure out what it all means before it's too late **Comics and Stuff** Henry Jenkins,2020-04-14 Considers how comics display our everyday stuff junk drawers bookshelves attics as a way into understanding how we represent ourselves now For most of their history comics were widely understood as disposable you read them and discarded them and the pulp paper they were printed on decomposed over time Today comic books have been rebranded as graphic novels clothbound high gloss volumes that can be purchased in bookstores checked out of libraries and displayed proudly on bookshelves They are reviewed by serious critics and studied in university classrooms A medium once considered trash has been transformed into a respectable if not elite genre While the American comics of the past were about hyperbolic battles between good and evil most of today's graphic novels focus on everyday personal experiences Contemporary culture is awash with stuff They give vivid expression to a culture preoccupied with the processes of circulation and appraisal accumulation and possession By design comics encourage the reader to scan the landscape to pay attention to the physical objects that fill our lives and constitute our familiar surroundings Because comics take place in a completely fabricated world everything is there intentionally Comics are stuff comics tell stories about stuff and they display stuff When we use the phrase and stuff in everyday speech we often mean something vague something like etcetera In this book stuff refers not only to physical objects but also to the emotions sentimental attachments and nostalgic longings that we express or hold at bay through our relationships with stuff In Comics and Stuff his first solo authored book in over a decade pioneering media scholar Henry Jenkins moves through anthropology material culture literary criticism and art history to resituate comics in the cultural landscape Through over one hundred full color illustrations using close readings of contemporary graphic novels Jenkins
