**The Guide to Literary Terms (MAXNotes Literature Guides)** Gail Rae, 2013-01-01 REA's MAXnotes Guide to Literary Terms REA's book is a concise easy to use guide to the literary terms and devices which high school and undergraduate students encounter most often. The main body of the book is an alphabetical listing of approximately 150 of the most commonly encountered literary terms or devices. The entries are simplified to enable students with no knowledge of the terms to become comfortable with their uses in a short time. Each entry in the book includes a definition of the literary term or device, a history of the term's use and origin, and specific references to texts in which the term has been used.

*Encyclopedia of Transportation* Mark Garrett, 2014-08-13 Viewing transportation through the lens of current social economic and policy aspects this four volume reference work explores the topic of transportation across multiple disciplines within the social sciences and related areas including geography public policy business and economics. The book's articles all written by experts in the field seek to answer such questions as What has been the legacy not just economically but politically and socially as well of President Eisenhower's modern interstate highway system in America. With that system and the infrastructure that supports it now in a state of decline and decay what's the best path for the future at a time of enormous fiscal constraints. Should California politicians plunge ahead with plans for a high speed rail that every expert says despite the allure will go largely unused and will never pay back the massive investment while at this very moment potholes go unfilled all across the state. What path is best for emerging countries to keep pace with dramatic economic growth for their part. What are the social and financial costs of gridlock in our cities. Features Approximately 675 signed articles authored by prominent scholars are arranged in A to Z fashion and conclude with Further Readings and cross references. A Chronology helps readers put individual events into historical context a Reader's Guide organizes entries by broad topical or thematic areas a detailed index helps users quickly locate entries of most immediate interest and a Resource Guide provides a list of journals books and associations and their websites. While articles were written to avoid jargon as much as possible a Glossary provides quick definitions of technical terms. To ensure full well rounded coverage of the field the General Editor with expertise in urban planning public policy and the environment worked alongside a Consulting Editor with a background in Civil Engineering. The index Reader's Guide and cross references combine for thorough search and browse capabilities in the electronic edition Available in both print and electronic formats *Encyclopedia of Transportation* is an ideal reference for libraries and those who want to explore the issues that surround transportation in the United States and around the world.

Brown,2017-03-17 Designed for both Hebrew and non Hebrew students A Handbook to Old Testament Exegesis offers a fresh hands on introduction to exegesis of the Old Testament William P. Brown begins not with the biblical text itself but with the reader helping students to identify their own interpretive lenses before engaging the biblical text Brown guides the student through a wide variety of interpretive approaches including modern methodologies feminist womanist Latino a queer postcolonial disability and ecological approaches alongside more traditional methods This allows students to critically reflect on themselves as bona fide interpreters While covering a wide range of biblical passages Brown also highlights two common biblical texts throughout the work to help show how each interpretive approach highlights different dimensions of the same texts Students will

Research Libraries, 1999 [Human-Animal Relations in Tourism, Leisure and Development](#) Carlos Monterrubio, Xavier López-Medellín, Katherine Dashper, Helen Wadham, 2025-04-17 Humans and animals have developed multiple and complex interactions in the fields of tourism leisure and development. However much of the existing research on how humans and animals interact in these fields has emerged from within the context of developed countries. As a result little has been documented about human animal interactions in the socioeconomic, cultural and environmental contexts of countries in the Global South. Specifically the diversity and complexity of interspecies relationships in tourism leisure and local development in Latin America have been largely ignored in Anglo Saxon literature. This has resulted in a limited partial and hegemonic understanding and debate about human animal relationships globally dominated by certain regions of the world. This book addresses this gap by documenting multiple and complex relationships between humans and animals in the fields of tourism leisure and local development in countries in Latin America. *Merrill Earth Science* Ralph M.
