Macroprudential Banking Supervision & Monetary Policy Luca Amorello, 2018-08-27 The European experience suggests that the efforts made to achieve an efficient trade off between monetary policy and prudential supervision ultimately failed The severity of the global crisis have pushed central banks to explore innovative tools within or beyond their statutory constraints capable of restoring

the smooth functioning of the financial cycle including setting macroprudential policy instruments in the regulatory toolkit. But macroprudential and monetary policies by sharing multiple transmission channels may interact and conflict with each other. Such conflicts may represent not only an economic challenge in the pursuit of price and financial stability but also a legal uncertainty characterizing the regulatory developments of the EU macroprudential and monetary frameworks. In analyzing the legal interaction between the two frameworks in the EU this book seeks to provide evidence of the inconsistencies associated with the structural separation of macroprudential and monetary frameworks shedding light upon the legal instruments that could reconcile any potential policy inconsistency.

Law and Regulation of Mobile Payment Systems

Joy Malala, 2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa. In Kenya the introduction of M Pesa a new financial services model has transformed the banking and financial services industry. Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts. This book addresses the legal and regulatory issues arising out of the introduction of M Pesa in Kenya and its drive towards financial inclusion. It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity. This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion. It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments. The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya.
