**Advanced Social Work with Children and Families** Christine Cocker, Lucille Allain, 2011-01-19 Practice and legislation in child and family social work are always changing and have once again come under the spotlight. This text contextualises the bureaucratisation and managerialism of modern social work while also covering the advanced and complex skills necessary for competent social work practice in this area. The recent introduction of a new framework for Post Qualifying social work practice provides an opportunity for the development of a robust text covering the basics at an advanced level.

**Family Matters** Mohammed Lahrichi, 2014-02-24 Foster caring is as challenging as it is rewarding. There is a school of thought that if one is interested in fostering then one can become a foster carer. Considering the many problems that surface on a day to day basis in a given fostering environment it takes much more than interest in fostering to make fostering work. Family Matters frankly discusses what fostering entails and clearly demonstrates how Mohammed and Sharon Lahrichi have had a reasonable degree of success in their fostering work. It documents cases that tell how foster children as well as biological children interpret their lived experiences as children of the same household. It is a book that foster carers, social workers and all those who involve in care work should read. In fact it will make an interesting read for all members of any given family. Family Matters also advances the idea that fostering is a work of love which should be taken seriously but which also should be celebrated in spite of the range of emotions that foster caring is capable of evoking.

**Developing and Evaluating Multi-Agency Partnerships** Rita Cheminais, 2009-09-10 In recent years government initiatives such as Sure Start, Extended Schools and Every Child Matters have been significant in the promotion of an agenda to create collaborative working environments and introduce multi agency practice into a range of child centred settings. Developing and Evaluating Multi Agency Partnerships provides advice and guidance for managers and leaders responsible for overseeing multi agency working in these settings providing a self evaluation framework to help improve the quality and effectiveness of multi agency relationships. The valuable tools and templates within this book will explain the importance of self evaluation. Provide a framework for self evaluation via a step by step guide. Link multi agency practice with improving the Every Child Matters outcomes. Suggest best practice for gathering multi agency evidence. Give guidance on building a portfolio of evidence and achieving external recognition. The self evaluation framework provided in this book meets the requirements of the Children's Workforce standards and OFSTED requirements for effective partnerships. A highly practical handbook this book is essential reading for all those who are implementing or improving a multi agency partnership in their setting.
