That moment sent her on a twenty three year search for answers to the question: How do we help middle and high schoolers who can't read? Part Two, The Content, considers critical subjects for deaf learners and how to deliver them, including mathematics, print literacy, science, social studies and physical education. This section also addresses the role of itinerant services as well as how to teach Deaf culture. Part Three, Instructional Considerations Across the Curriculum, provides suggestions and guidelines for assessing and planning programs for deaf students using meaningful contexts, optimizing the academic performance of deaf students with emphasis on access and opportunities, implementing a cognitive strategy that encourages teaching for and about thinking as an overriding principle, establishing instructional and practical communication in the classroom especially in relation to ASL and English based signing, and solving old problems with new strategies including Web based technologies, resources and applications.
