Chasing Cool Chasing Cool:

Chasing Cool Noah Kerner, Gene Pressman, 2014-02-15 Cool isn't just a state of mind a celebrity fad or an American obsession it's a business In boardrooms across America product managers are examining vodka bottles and candy bars tissue boxes and hamburgers wondering how do we make this thing cool How do we make this gadget into the iPod of our industry How do we do what Nike did How do we get what Target got How do we infuse this product with that very desirable nearly unattainable it factor In this wide ranging exploration the authors Noah Kerner a celebrated marketing maverick and Gene Pressman legendary creative visionary and former co CEO of Barneys New York have uncovered surprising and universal patterns and trends They systematically parse the successes and failures of the last few decades in music and fashion magazines and food spirits and hip hop culture Their discoveries are pulled together in this definitive book on the commerce of cool Nike and Target endure as relevant brands not because of a shortsighted and gimmicky campaign A dash of bling and a viral website don't amass long term value Brands are effectively developed when companies take substantial risk and face the possibility of real failure in order to open up the opportunity for real success Chasing Cool includes interviews with more than seventy of today's most respected innovators from Tom Ford and Russell Simmons to Ian Schrager and Christina Aguilera And through this accomplished assemblage Pressman and Kerner dig beneath the surface and reveal how emphasizing long lasting relevance trumps a fleeting preoccupation with what's hot and what's not In a multidimensional entertaining and eminently readable book that redefines how to appeal to today's savvy consumer Kerner and Pressman explore the lessons to be learned by America's ongoing search for the ever changing concept of cool Readers will learn how to apply these lessons to their own businesses and creative projects in order to stand out in today's cluttered marketplace

Chasing Cool Brett Rickey, 2007 In Chasing Cool Rickey helps us rediscover what our true pursuits are and realize what a life we can have with Christ **High Schoolers, Meet Media Literacy** Jim Wasserman, 2019-06-18 High school students today are no longer insulated from the vicissitudes of messaging counter messaging in today's always available always blaring media coming into their cars homes and ears through ever more personal devices including the cross accusations of fake news that leave true seekers of information spinning in circles Young people are no longer future consumers as products they are not even old enough to buy are pitched to them while groups with political agendas seek to make future voters already on their team before they first step into a voting booth Fortunately there is now a call for empowering teens with the knowledge and skills to decode such messaging so that they are no longer passive receptacles of messaging but active participants in their own media processing This is the field of media literacy Middle Schoolers, Meet Media Literacy Jim Wasserman, David W. Loveland, 2019-01-19 In a world of media saturation children today are not future consumers of information and goods but targeted participants involved in a game in which they don't know the rules or even that they are playing yet one that will affect them throughout their lives This book is a teaching manual that helps teachers not only

explain the concepts of consumer economics and media literacy to middle schoolers but supplies lessons for students to get hands on experience recognizing deconstructing evaluating and choosing for themselves whether to accept the tangible product or intangible message offered Teachers can use the lessons to help students build a toolbox of analytical skills that they can carry with them and develop further throughout the rest of their lives to distinguish information from persuasion from what people tell them they should believe to what the students through critical thinking decide is worthy of their belief
