## **Contention Multidisciplinary Journal Social Protest:**

*Contention: the Multidisciplinary Journal of Social Protest* Contention Journal, 2014-04-29 Contention The Multidisciplinary Journal of Social Protest is a scientific journal which aims to offer a novel contribution to the study of social protest. The journal intends to advance knowledge about a comprehensive range of collective actions, social movements and other forms of political and social contention. Its main purposes are to offer a multidisciplinary forum to scholars from different fields and to bridge the gap between them within and across the social sciences and humanities. Social protest emerges from a complexity of phenomena. Different research traditions have developed dissimilar and sometimes divergent sets of analytical tools through which to explore social actions, social movements, social protest and other forms of contention. These differences are often paralleled by a priori epistemological endeavours and ontological claims about the nature of the object of study, the relevance of its properties and the appropriate level of analysis. The aim of this special issue, Volume 2 1, co-edited by Giovanni A. Travaglino and Brian Callan, is to offer the reader a series of papers which explore, problematize and account for the different methodologies, empiricisms and theoretical claims of different approaches involved in the study of social protest.

**Symbolic Objects in Contentious Politics** Benjamin Abrams, Peter Robert Gardner, 2023-04-04 When we observe protest marches striking workers on picket lines and insurgent movements in the world today a litany of objects routinely fill our field of vision Some such objects are ubiquitous the world over like flags banners and placards Others are situationally unique Who could have anticipated the historical importance of a flower placed in the barrel of a gun a flaming torch a sea of

umbrellas a motorist s yellow vest a feather headdress an AK 47 or a knitted pink hat This book explores the stuff at the heart of protests revolutions civil wars and other contentious political events with particular focus on those objects that have or acquire symbolic importance In the context of contentious politics disruptive political episodes where people try to change societies without going through institutions certain objects can divide and unite social groups tell stories make declarations spark controversy and even trigger violent upheavals This book draws together scholars from a variety of fields to discuss symbolic objects in contentious politics their meanings uses functions and social responses In bringing these phenomena together this book offers a serious distinctive and cohesive theoretical contribution that draws upon diverse scholarly work in order to form the building blocks for future inquiry in the field The aim is not merely to close the gap in the literature but to create space in the field for further and more fruitful inquiry
