Becoming a Counselor Samuel T. Gladding,2021 Some events change your life Most are not so powerful Critical occurrences that have an impact are landmark experiences such as leaving home the death of a parent the achievement of a goal failure an accident a chance encounter or a natural disaster Other transitional times may be less notable but still influential such as moments of insight prejudice or simple acts of kindness Outside of these memorable incidents the rest of our existence is rather mundane and routine Thus we may be at a loss to recall what we ate or to whom we talked two days ago because neither was significant in life changing or life giving ways In counseling we see people at crisis points They are usually ready or willing to make necessary changes some of which are dramatic However as clinicians we seldom remember most of the people we encounter because the helping process is more routine than avant garde My experiences reflect that pattern I can recall only a few of the hundreds of individuals I have assisted Yet some events in my personal and professional life have been turning points that have influenced my growth and development in a manner like those situations that have most affected my clients You have had or most likely will have some similar experiences These times are filled with a plethora of emotions and thoughts as well as new behaviors The vignettes in this text are representative of many universal dimensions involved in becoming a person and a helping professional In these stories you

will find examples of the light that is the humorous developments in life and in counseling the bright that is the insight that comes from life experiences and counseling and the serious that is the deeper and more sobering dimensions of life and counseling Sometimes these three dimensions the light the bright and the serious occur simultaneously and are obvious Sometimes they are sequential and more nuanced Regardless they are a part of the experience of novice and veteran counselors Although the incidents in these stories are unique they are broad based You may find yourself identifying with some of the events and their applicability to you The Points to Ponder section at the conclusion of each chapter is an especially good place for such reflections In any case it is my hope that this book will assist you in living a richer fuller deeper and more meaningful life through gaining greater awareness of yourself and the processes involved in the bittersweet process of choice and change In reading this text remember while the incidents recorded here occurred a few of the stories have been embellished a bit In all circumstances characters who are a part of these episodes unless specifically identified have been disguised through multiple means such as being combined with similar people in a composite changing their names switching their genders or modifying their presenting problem modified New to the Third Edition This third edition of *Becoming a Counselor* has grown from 121 stories to 156 It has also expanded in scope The previous editions of this book contained some stories of my coming of age This edition contains two dozen more from early childhood through college Some of the incidents in these early memories influence my life today e g Hard Work A number of them I look back on time with nostalgia e g Sex in the Church Then there is a third group I find unbelievable as in what was I thinking e g Water works A Rush Downstream to the Reservoir Regardless these stories are who I was developmentally at a point in time and they are timeless as memories Besides an increase in the number of stories this edition of the *Becoming a Counselor* has grown from 14 to 17 sections Each section begins with a *Becoming* theme These sections describe how I was becoming who I am today through such matters as making mistakes early in my career or venturing into the land of leadership

The Creative Arts in Counseling Samuel T. Gladding,2021 Counseling is a professional relationship that empowers diverse individuals families and groups to accomplish mental health wellness education and career goals Kaplan et al 2014 p 366 Counselors focus on helping clients make developmentally appropriate choices and changes Effective counselors are aware of the multidimensional nature of the profession and choose from a wide variety of interventions when working with diverse populations The creative arts are a sometimes overlooked aspect of counseling that can promote the best within the helping arena Neilsen et al 2016 By their very nature the arts foster different ways of experiencing the world They are enriching stimulating and therapeutic in their own right When used in clinical situations the creative arts can help counselors and clients gain unique and universal perspectives on problems and possibilities In this sixth edition of Creativity and The Creative Arts in Counseling I concentrate on how the creative arts can be used independently and complementarily to enhance the counseling process on primary secondary and tertiary levels
