Reimagining Philosophy and Technology. Reinventing Ihde Glen Miller, Ashley Shew, 2020-04-27 This volume includes eleven original essays that explore and expand on the work of Don Ihde bookended by two chapters by Ihde himself Ihde the recipient of the first Society for Philosophy and Technology s Lifetime Achievement Award in 2017 is best known for his development of postphenomenology a blend of pragmatism and phenomenology that incorporates insights into the ways technology mediates human perception and action The book

contains contributions from academics from Europe North America and Asia which demonstrates the global impact of Ihde's work. Essays in the book explore the relationship between Ihde's work and its origins in phenomenology especially Husserl and Heidegger and American pragmatism integrate his philosophical work within the embodied experience of radical architecture and imagine the possibility of a future philosophy of technology after postphenomenology. Develop central ideas of postphenomenology and expand the resources present in postphenomenology to ethics and politics and extend the influence of Ihde's ideas to mobile media and engineering and comprehensively assess the influence of his work in China. The book includes a reprint of the Introduction of *Sense and Significance* one of Ihde's first books. Hawk Predatory Vision a new chapter that blends his biographical experience with feminism technoscience and environmental observation and an appendix that lists all of Ihde's books as well as secondary sources annotated by Ihde himself. Starting with an Editors Introduction that offers an overview of the central ideas in Ihde's corpus and concluding with an index that facilitates research across the various chapters this book is of interest to a diverse academic community that includes philosophers STS scholars anthropologists historians and sociologists.

The Philosophy of Expertise Evan Selinger, Robert P. Crease, 2006

From the use of expert testimony in the courtroom to the advice we rely on to solve key economic political and social problems expertise is an essential part of our decision making process. However the extent to which experts can be trusted is a subject of persistent and contentious debate. *The Philosophy of Expertise* is the first collection to explore the fundamental philosophical issues surrounding these authorities and their expert knowledge. Part 1 considers the problems surrounding the issue of trust and deference. Part 2 launches a phenomenological clarification of expertise that pinpoints the universal structures embodied in cognition and affect and part 3 examines the consequences of the social and technical externalization of expertise. Contributors including Edward Said Alvin Goldman Peter Singer Hubert Dreyfus Julia Annas Harry Collins and Don Ihde draw on a number of intellectual approaches to explore the justification of expert authority the potentially dangerous role of expertise in a liberal democratic society how laypeople can critique experts and the social and ideological character of expert advice. The contributors also discuss the reasoning process of judges and juries the ancient Greek view of moral conduct and the incorporation of experts into governmental bureaucracy. By honestly tackling the legitimacy and consistency of various positions this volume sheds much needed light on the theoretical dimensions of a controversial and pervasive practice.
