Strategic Board Recruitment Robert W. Kile, J. Michael Loscavio, 1996
Board recruitment is one of the most important and least understood functions of nonprofit boards
The search for new members often involves well intentioned volunteers with little or no recruiting experience
contacting well intentioned candidates with little or no board experience
Such an approach to board recruitment is too limited in today s competitive nonprofit environment where leadership fund raising diversity and vision are needed more than ever
The eight step Strategic Board Recruitment model is based on the systems and techniques used by executive search professionals
it has been tailored to guide nonprofits in their ongoing efforts to strengthen their boards
This model provides a framework for executing and institutionalizing a results oriented recruitment process

Landscape Architecture in the Arab Middle East Beata Dreksler, Jala Makhzoumi, 2025-09-30
This book explores the challenges facing landscape architecture in the Middle East
It supports the idea that landscape is a multifaceted idea and examines landscapes architecture as an emerging profession in the region
The book also responds to the limitations of faulty translations of the English landscape that in turn limit the professional potential in the region
The authors of the book see landscape as a way of beholding the world that is informed by place and culture
And because landscape is context specific a landscape framing contextualizes a problem be it community development tourism or nature conservation to foster place and culture responsive perspectives
The nine chapters are grouped under four broad themes that reflect the multifaceted expansive framing that embraces landscape natural and cultural heritage people and livelihoods and landscape and human rights
The authors recognize that a landscape framing is not the exclusive domain of landscape architecture but can be applied by architects planners and environmentalists
The ideas advanced and issues discussed will be of interest to researchers students and practitioners in landscape architecture architecture planning and urban design as

well as social and environmental scientists
