on the TEAS, a sample application of the content
across the test questions is also included to
show you what questions are included in
each section of the TEAS.

TEAS SUBJECT AREAS

The test has been developed for health science students to measure the academic preparedness of prospective students. Questions on the TEAS assess student knowledge of the disciplines that address topics covered in grades 9-12. The disciplines include skills and concepts that health science educators believe are most important for success in health science programs. The disciplines cover the academic subject areas of:

- Reading
- Math
- Science
- English and Language Usage

Introduction

The TEAS covers the essential knowledge
necessary for entry into the disciplines of the
TEAS. Keep in mind that the concepts provided
in the material are not comprehensive. They do
not include all the possible content categories
on the TEAS. The chapters do, however,
provide a clear overview of the content and skills
you will encounter on the TEAS.

TEAS QUESTIONS

The TEAS is composed of 160 items that include
100 selected-format items, 60 multiple-choice questions with
one best option, multiple-choice questions with
the identification of the best fit, 10 true/false
items, alternate true/false items, and 10
paired items. These include:

- Multiple-choice (one of four equal)
- Supply (true/false)
- Alternate (true/false)
- Matching (two options to the correct
response)
- True/false (one or two of four options)

The test is available in both paper-and-pencil
multiple-choice question and computer-
administered formats. Questions from the
four subject areas are grouped in separate
sections, and each has a separate, individual
score line. The following table provides the
number of questions and score lines for each
section of the TEAS, listed in order of administration:

Subject Area	Number of Questions	Score
Reading	40 questions (5 percent)	50 max
Mathematics	30 questions (5 percent)	50 max
