

# CPR for an Adult

## 1

Check the person and the person's ABCs (Airway, Breathing, Circulation).

If the person is unresponsive and not breathing normally, call EMS/9-1-1 and get an AED or have someone else do this.

## 2

Place both of your hands on the centre of the person's chest.

Do 30 chest compressions: Push deeply and steadily.

## 3

Open the airway by tilting the head back and lifting the chin.

Place your barrier device over the person's mouth and nose.

Give 2 breaths.

## 4

Repeat cycles of 30 chest compressions and 2 breaths.

Continue CPR until an AED arrives or more advanced care takes over.

The information in this poster does not replace formal First Aid & CPR training.

*First Aid* Cassian Pereira, AI, 2025-03-17 First Aid is a vital guide for anyone seeking to master life saving techniques and confidently respond to medical emergencies. This comprehensive resource equips readers with essential skills in wound management, CPR and emergency response. Did you know that effective CPR involves chest compressions at a rate of 100-120 per minute mimicking the rhythm of the song Stayin' Alive? Or that understanding how to manage allergic reactions can be the difference between life and death while awaiting medical support? The book presents information in a clear concise manner starting with fundamental principles like safety precautions and infection control then progresses to detailed chapters on specific injuries and medical conditions. Practical scenarios reinforce learning ensuring you're prepared to act decisively. First Aid emphasizes that basic medical knowledge isn't just for professionals it's a shared responsibility that empowers communities to be safer and more resilient.
