Perspectives in Business Informatics Research Jelena Zdravkovic, Janis Grabis, Selmin Nurcan, Janis Stirna, 2018-09-17 This book constitutes the proceedings of the 17th International Conference on Perspectives in Business Informatics Research BIR 2018 held in Stockholm Sweden in September 2018 This year's conference theme was Business Resilience Organizational and Information System Resilience in Congruence The 17 papers presented in this volume were carefully reviewed and selected from 50 submissions The papers were organized in topical sections named business people and system resilience resilient collaboration digital transformation information technology management enterprise systems and data analytics and business and information systems

development **Information Technology Evaluation Methods and Management** Wim Van Grembergen, 2001-01-01 The evaluation of IT and its business value are the subject of many academic and business discussions Investments in IT are growing extensively and business managers worry about the fact that the benefits might not be as high as expected This phenomenon is often called the IT investment paradox or the IT Black Hole large sums are invested in IT that seem to be swallowed by a large black hole without rendering many returns How to measure the benefits of IT is the concern of this book titled Information Technology Evaluation Methods and Management The different IT evaluation approaches and methods are discussed and illustrated with cases traditional financial evaluations such as the return on investment information economics and the recently introduced IT Balanced Scorecard The latter approach is proposed as an ideal mechanism to support the IT business alignment process and its related IT governance process Among some of the topics included in this book are software measurement ERP project evaluation strategic electronic commerce evaluation

Information Systems Marinos Themistocleous, Maria Papadaki, 2020-04-17 This book constitutes selected papers from the 16th European Mediterranean and Middle Eastern Conference EMCIS 2019 held in Dubai UAE in October 2019 EMCIS is dedicated to the definition and establishment of Information Systems as a discipline of high impact for the methodical community and IS professionals focusing on approaches that facilitate the identification of innovative research of significant relevance to the IS discipline The 48 full papers presented in this volume were carefully reviewed and selected from a total of 138 submissions They were organized in topical sections named Big Data and Analytics Blockchain Technology and Applications Cloud Computing Digital Services and Social Media e Government Enterprise Information Systems Health Care Information Systems Information Systems Security and Information Privacy Protection Innovative Research Projects IT Governance and Management and Organizational Issues in Information Systems **Fortune** ,2004 **Technical Training** ,1999 *Computerworld* ,2005-12-19 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network *Management Information Systems* Kenneth C Laudon, Jane Price Laudon, 1999-10 *Why ERP? A Primer on SAP Implementation* F. Robert Jacobs, D. Clay Whybark, 2000-01-06 Why ERP is not a traditional textbook designed for a specified course it is patterned after the wildly successful short novel The Goal by Eli Goldratt The Goal is currently required reading in many undergraduate MBA and executive courses Like The Goal Why ERP is a short novel about a manager in a furniture manufacturing business who is charged with learning about and implementing a new ERP system particularly SAP R 3 The story tells of his experience learning about it his considering other installations as examples and then his deciding the key issues and how to proceed Incorporated into the story is a concise introduction to the basic concepts and architecture of ERP systems including actual screen shots of R 3 modules Though this is NOT a programming book it is a quick read

overview and it can be assigned even for systems majors as a background reading to lay out the managerial issues and build a basic understanding of the concepts prior to doing actual technical programming or hands on R 3 projects Through the eyes of the hero in the novel the reader is presented with all the related implementation and business issues Intended to provide a non technical non programming introduction this book can stand alone as a quick read or self study introduction for any manager or business student The text is also great for schools who do NOT have any SAP Oracle PeopleSoft or other ERP system on campus and who have no access to online or hands on samples or examples This book can provide the needed literacy and awareness of what ERP is and why it matters Learning SAP MM (Materials Management). Justin Valley,2019
