W. Cloete,1940 **English** W F Webster,W. F. Webster,2023-12-04 At the request of friends I have prepared this short text book outlining the method of carrying forward the course and emphasizing the principles necessary for the intelligent communication of ideas It has not been the purpose to write a rhetoric The many fine distinctions and divisions the rarefied examples of very beautiful forms of language which a young pupil cannot possibly reproduce or even appreciate have been omitted To teach the methods of simple direct and accurate expression has been the purpose and this is all that can be expected of a high school course in English The teaching of composition differs from the teaching of Latin or mathematics in this point whereas pupils can be compelled to solve a definite number of problems or to read a given number of lines it is not possible to compel expression of the full thought The full thought is made of an intellectual and an emotional element Whatever is intellectual may be compelled page iv by dint of sheer purpose whatever is emotional must spring undriven by outside authority and uncompelled by inside determination A boy saws a cord of wood because he has been commanded by his father but he cannot laugh or cry because directed to do so by the same authority There must be the conditions which call forth smiles or tears So there must be the conditions which call forth the full expression of thought both what is intellectual and what is emotional This means that the subject shall be one of which the writer knows something and in which he is interested that the demands in the composition shall not be made a discouragement and that the teacher shall be competent and enthusiastic inspiring in each pupil a desire to say truly and adequately the best he thinks and feels English Language - Composition , Pamphlets from the vertical file **English Composition** Stratton Duluth Brooks,2025-05-22 *English Composition Volume 1* by Stratton Duluth Brooks is a comprehensive guide to mastering the fundamentals of effective writing Designed for students and anyone seeking to improve their command of the English language this volume offers clear explanations and practical exercises in grammar rhetoric and composition Explore techniques for crafting well structured sentences developing compelling arguments and expressing ideas with clarity and precision Whether you re a student preparing for exams or a professional aiming to
