Classical Apologetics:

Classical Readings in Christian Apologetics L. Russ Bush, 1983 This volume is a collection of selected readings that are of continuing significance for Christian apologetics. Dr. Bush has written a general introduction to the field of apologetics and an introduction to each apologist cited and the work or works from which selections have been drawn. A brief bibliography is also given for each writer. Christians have always been called on to defend their beliefs, certainly no less today than at any other time in history. In this book, the outstanding apologists of previous centuries become models both in the content of their writing and in their methodology for Christians today. All those who love the Lord and His church and are concerned that many be made aware of the reasonableness of the Christian faith will find this book enlightening and exciting.

Classical Apologetics Robert Charles Sproul, John Henry Gerstner, Arthur Lindsley, 1984 This work on apologetics examines the classical arguments for the existence of God: ontological and Thomistic arguments, discusses the philosophical issues that confront contemporary apologetics and provides an incisive critique of presuppositional apologetics.

Resurrection, Scripture, and Reformed Apologetics Steven D. West, 2012-07-26 Apologetic methodology has been the subject of intense debate in Reformed circles. This book argues that we can test Reformed apologetic methods for consistency using two linchpin theological topics: the doctrine of the resurrection and the doctrine of Scripture. Should apologetics move from establishing theism to the resurrection and then to Scripture? Or should theism, the resurrection, and the doctrine of Scripture be accepted on the testimony of the Holy Spirit as basic beliefs? Alternatively, do these doctrines need to be presupposed and incorporated into a transcendental defense of the faith? After analyzing classical apologetics, historical evidentialism, Reformed epistemology, and presuppositionalism for their apologetic cogency, Steven D. West contends that any method used by Reformed apologists should be able to argue successfully for a high view of Scripture, the source of the doctrine of the resurrection. The book will be useful to everyone interested in the relationship between theology, philosophy, and apologetics.

The Knowledge of God in the World and the Word Douglas Groothuis, Andrew I. Shepardson, 2022-12-06 Intellectual support for defending your faith. *Knowledge of God in the World and the Word* is a clear and succinct introduction to classical Christian apologetics that also addresses the most common objections to natural theology. Amid the crisis of authority in our modern and postmodern era, Christians need to be able to point to God's revelation in the natural world in addition to defending God's unique revelation in the Bible and in the person of Jesus Christ. Classical apologetics takes a two-step approach to commending the Christian picture of reality: first, establishing arguments for the existence of God and then defending key items of Christian revelation, including the reliability of the Bible, the identity of the historical Jesus, and the resurrection of Jesus Christ from the dead. With this book, you will discover an easy point of entry into understanding why Christian beliefs about Jesus are true and rational. Perfect for any Christian who wants to articulate a sophisticated and comprehensive defense of their faith.

Included with each entry are practical applications for approaching or defending the issue at hand along with recommendations for additional reading on the subject.

Five Views on Apologetics Zondervan, 2010-06-01 Of the most common approaches to apologetics which is most effective. The goal of apologetics is to persuasively defend Christianity against charges of falsehood, inconsistency, or credulity. It's an intellectual discipline that serves to bolster the faith of Christian believers and to aid the task of evangelism, but are some methods more effective than others? Five Views on Apologetics examines the how-to of apologetics, putting five prominent techniques under the microscope. Classical represented by William Lane Craig; Evidential represented by Gary Habermas; Cumulative Case represented by Paul D. Feinberg; Presuppositional represented by John M. Frame; Reformed Epistemology represented by Kelly James Clark. Offering a forum for presentation, critique, and defense, this book allows the contributors for the different viewpoints to respond to the others. Your own informed conclusions can then guide you as you meet the questions of a needy world with the claims of the gospel. The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair minded and respectful of the biblical text. Developing a Christian Apologetics Educational Program Douglas E. Potter, 2010-02-18 Many are expressing concern about the future of Christian youth today. What can we do to help ensure they will keep their evangelical faith once they graduate from high school? Can Christian apologetics provide an educational solution? **Developing A Christian Apologetics Educational Program** explores issues certain to be encountered by secondary school educators who want to teach apologetics as a distinct subject of study either as a part of a Christian institutional or home school curriculum. This book helps the apologist and educator blend their skills to soundly integrate the two subjects. A solution is sought by providing a background and rationale for implementing an age level appropriate apologetics course at this critical level of Christian education. This book is designed as a text to supplement those used in Christian education or applied apologetics courses. Each chapter successively builds upon the other to help develop an educational philosophy that supports the inclusion of apologetics in the curriculum. A model is explained and materials are given to support the development of a curriculum in Christian Apologetics Education at the secondary level. Practical ideas are explored and a sample unit of instruction is supplied to help the educator develop an evangelical approach to education that is in the classical apologetic tradition.

Horton PhD Southeastern Baptist Theological Seminary suggests the other perspectives are incomplete until they include cultural apologetics. Timothy
