Computerized Financial Systems:

Computerized Financial Systems Randall J. Dyck, 2014-10-18 This book gives technical people an idea of how financial data can be handled within computer systems. It covers basic financial concepts and then gives ideas on how accounting information can be recorded and processed in databases. It discusses general ledgers, receivables, payables, inventory, and fixed asset systems as well as others. An earlier book was *Life as a Professor* which discussed the challenges of teaching current business and technology subjects and suggested improvements which are needed. A later book *E Commerce Concepts* discussed practical and conceptual concepts regarding issues to consider in implementing e-commerce. Another book *MBA Strategic Analysis* discussed methods to use to assess business strengths so that opportunities for growth can be more effectively implemented.

Computerized Financial Systems Randall Dyck, 2014-10-18 This book gives technical people an idea of how to design functional financial systems within computer database systems. The material is based on the author's 20 years of applying it in industry on his doctoral studies of computer science and on his lecture notes for business and computer courses that have accumulated over the last decade. It covers basic financial concepts and then gives ideas on how accounting information can be recorded and processed in databases. It discusses general ledgers, receivables, payables, inventory, and fixed asset systems as well as others. All file structures are explained along with sample data diagrams for the structures and suggestions for other changes that can be done to accommodate multi-company and multi-currency situations. An earlier book *Life as a Professor* highlighted the challenges that are encountered in teaching current business and technology methods in colleges and universities along with recommendations for solutions that are needed now in classrooms. A later book *E Commerce Concepts* discussed strategies to use when a business wanted to take advantage of e-commerce to increase their sales and international exposure. Another book *MBA Strategic Analysis* discussed methods to use to assess business strengths so that opportunities for growth can be more effectively implemented.

The Architect's Handbook of Professional Practice American Institute of Architects, 2008-03-24 Architects must be proficient in a variety of business practices to contribute to manage or launch a successful firm. They are responsible for the same kind of legal, financial, marketing, management and administrative activities as any other professional. Within these broad categories, however, there are many details including professional standards and documents that are unique to the profession of architecture.

Artificial Financial Intelligence in China Dawei Zhao, Wenting Zhang, 2021-10-27 This book starts from the application scenarios of artificial financial intelligence, regulation, commercial banking, wealth management and payments etc, and makes a detailed study of the main scenarios of the application of China's artificial intelligence in the financial field and also analysis specific application cases of China. With the popularization of smart phones and the rapid development of e-commerce, mobile payment, big data and other technologies are in the ascendant in China in recent years. In particular, artificial intelligence technologies in the form of facial speech and semantic recognition are showing preliminary advantages in the field of FinTech and the future era of Intelligent Finance has quietly come. The Chinese government has clearly put forward China

should rely on a robust cycle of domestic demand and innovation as the main driver of the economy while maintaining foreign markets and investors as a second engine of growth science and technology innovation is the basic motivation of economic and social cycle to implement the dual circulation strategy it is necessary to understand the key role of scientific and technological innovation in financial innovation services and improve financial services must be driven by science and technology There is a natural relationship between artificial intelligence and financial services because financial services are credit and information intermediaries and data is the most critical for finance while artificial intelligence has a super ability in dealing with complex data At present many Chinese Banks have applied artificial intelligence to their daily operations and management such as accurate customer identification enhanced process tracking intelligent marketing and product process transformation so as to simplify financial service processes and shorten service cycles In General this book both pays attention to practical application and theoretical which is a useful reference book in theoretical research and practical work and also helps readers to understand the application of intelligent finance in China The CPA Journal ,1989
