Concise Guide Technical Communication:

A Concise Guide to Technical Communication Heather Graves, Roger Graves, 2020-11-06 This compact but complete guide shows that less is more with fewer extraneous details getting in the way of students trying to learn on the run it allows them to focus on the most important principles of effective technical communication The Concise Guide takes a rhetorical approach to technical communication instead of setting up a list of rules that should be applied uniformly to all writing situations it introduces students to the bigger picture of how the words they write can affect the people intended to read them Assignments and exercises are integrated throughout to reinforce and test knowledge [A Concise Guide to Technical Communication](#)

Gurak, 2001-11-01 **Technical Communication and the World Wide Web** Carol Lipson, Michael Day, 2005-05-06 Over the past decade the World Wide Web has dramatically changed the face of technical communication but the teaching of writing has thus far altered very little to accommodate this rapidly changing context Technical Communication and the World Wide Web offers substantial and broadly applicable strategies for teaching global communication issues affecting writing for the World Wide Web Editors Carol Lipson and Michael Day have brought together an exceptional group of experienced and well known teacher scholars to develop this unique volume addressing technical communication education The chapters here

focus specifically on curriculum issues and the teaching of technical writing for the World Wide Web contributing a blend of theory and practice in proposing changes in curriculum and pedagogy Contributors offer classroom examples that teachers at all levels of experience can adapt for their own classes The volume provides comprehensive coverage of the technical communication curriculum from the two year level to the graduate level from service courses to degree programs This volume is an important and indispensable resource for technical writing educators and it will serve as an essential reference for curriculum and pedagogy development in technical communication programs

Rethinking Post-Communist Rhetoric Kirk St.Amant,, Pavel Zemliansky,2016-04-08 This collection examines the forces and factors affecting rhetoric writing and communication expectations in the nations of the former Soviet Union and the Eastern Bloc The entries in this collection focus on four interconnected topics or contexts influencing rhetorical expectations and writing practices in these countries The four contexts are 1 the dynamics of the educational settings in which students learn about the relationships between rhetoric and writing 2 the professional environments in which students will apply their knowledge of rhetoric and writing upon completing their formal studies 3 the greater global context that affects the teaching of rhetoric and writing as connected to educational institutions becoming part of a larger and more integrated global community and 4 the factors and perceptions that affect how students apply and or expand their foundations in rhetoric and writing to communicate effectively across different forms of media By approaching ideas of rhetoric writing and communication from the perspective of these four areas this collection provides readers with a broad foundation for understanding the various overarching and interlocking contexts that affect perceptions of and practices involving communication practices and expectations in the former Eastern Bloc Additionally this approach provides researchers teachers and students with ideas and approaches that can be used to more effectively engage both with this topic area and with individuals from these nations
