Life

Span Human Development Carol K. Sigelman, Linda De George, Kimberley Cunial, Elizabeth A. Rider, 2018-09-01 The third edition of Life Span Human Development helps students gain a deeper understanding of the many interacting forces affecting development from infancy, childhood, adolescence, and adulthood. It includes local, multicultural, and indigenous issues and perspectives; local research; in development; regionally relevant statistical information; and National guidelines on health. Taking a unique integrated topical and chronological approach, each chapter focuses on a domain of development such as physical growth, cognition, or personality, and traces developmental trends and influences in that domain from infancy to old age. Within each chapter, you will find sections on four life stages: infancy, childhood, adolescence, and adulthood. This distinctive organisation enables students to comprehend the processes of transformation that occur in key areas of human development. This text also includes a MindTap course offering with a strong suite of resources including videos and the chronological sections within the text can be easily customised to suit academic and student needs.

Organisational

Change Dianne Waddell, Andrew Creed, Thomas G. Cummings, Christopher G. Leaders and change agents are often faced with conflicting challenges of motivating and understanding increasingly diverse workforces accounting to stakeholders and planning for the future in a chaotic environment. Comprising 12 chapters in 6 parts, the text opens with an explanation of the environment of change faced by organisations today. It then deals with managing organisational development, which is a planned process of change which is often subject to the incursions of organisational transformation, a more dramatic and unpredictable type of change. With the field of organisational change continuing to evolve especially in an international context, future directions of change management are also discussed. Finally, to emphasise the relationship between theory to practice, Organisational Change Development and Transformation 6e provides 10 local and international case studies and a suite of online cases supported by a case matrix. Case studies, exercises, and support material present the challenges of change management in a real life manner, examining issues from a variety of viewpoints.
