

A movie poster for 'Alien Invasion'. The top half features a large, dark, metallic alien head with a textured, segmented surface, looking down. Below it, a man with long brown hair is shown from the chest up, screaming with his eyes closed and hands covering his face. The background is a misty, forested landscape. The text 'WE DO NOT COME IN PEACE' is in the top right, and 'ALIEN INVASION' is at the bottom in large, green, stylized letters.

WE DO  
**NOT**  
COME  
IN PEACE

**Building Bridges between Cultures in Ian McDonald's Science Fiction** Jerome Winter, 2025-09-18

This book is a career long retrospective of the Irish writer Ian McDonald and his complex compelling representation of our contemporary global condition Ian McDonald is a celebrated writer within the science fiction community whose rich and urgent body of works span over a quarter of a century The author claims McDonald's work functions as vital troubling allegories which both refuse the Orientalist euphemizing of colonial atrocities while still at the same time envisioning a transformative global alterity seeking an ethical and political embrace of systematically silenced subaltern voices in the neoliberal world system The book follows McDonald as the globe trotting writer travels from Ireland to Kenya to India to Brazil to Turkey to a proliferating multiverse and beyond Along the way the author analyzes McDonald's science fiction as a salient contribution to the flourishing cosmopolitan literature of postcolonial developing nations at the crossroads of the global imaginary

International Companion Encyclopedia of Children's Literature Peter Hunt, 2004-08-02

Children's publishing is a huge international industry and there is ever growing interest from researchers and students in the genre as cultural object of study and tool for education and socialization

**Mediated Terrorism in the 21st Century** Elena

Caoduro, Karen Randell, Karen A. Ritzenhoff, 2021-06-19 Mediated Terrorism in the 21st Century offers new interpretations of figures emerging from representations of terrorism and counterterrorism the male hero female agent religious leader victim perpetrator and survivor This collection of essays by a broad array of international scholars reflects the altered image making processes that have developed from George W Bush's war on terror Building on current literature on media and terrorism this volume analyzes the most recent technological developments that have impacted the way we experience terrorism online videos social media cartoons media feeds and drones The authors address different time periods different terrorist groups and explore the way filmmakers and television producers from the USA Europe South Africa and the Middle East are documenting modern wars in popular culture

The Cambridge Companion to American Science Fiction Gerry

Canavan, Eric Carl Link, 2015-01-26 The Cambridge Companion to American Science Fiction explores the relationship

between the ideas and themes of American science fiction and their roots in the American cultural experience Science fiction in America has long served to reflect the country's hopes, desires, ambitions and fears The ideas and conventions associated with science fiction are pervasive throughout American film and television, comics and visual arts, games and gaming, and fandom, as well as across the culture writ large Through essays that address not only the history of science fiction in America but also the influence and significance of American science fiction throughout media and fan culture, this companion serves as a key resource for scholars, teachers, students and fans of science fiction

*Invasive Birds* Colleen T. Downs, Lorinda A. Hart, 2020-12-07 Examining globally invasive alien birds, the first part of this book provides an account of 32 global avian invasive species as listed by the Invasive Species Specialist Group (ISSG). It acts as a one-stop reference volume; it assesses current invasive status for each bird species, including details of physical description, diet, introduction and invasion pathways, breeding behaviour, natural habitat. It also looks at the environmental impact of each species, as well as current and future control methods. Full-colour photographs assist with species identification and global distribution maps give a visual representation of the current known distributions of these species. The second part of the book discusses the biogeographical aspects of avian invasions, highlighting current and emerging invasive species across different regions of the world. The third section considers the impact of invasive species on native communities, problems associated with invasive bird management, and the use of citizen science in the study of invasive birds

*Encyclopedia of the Anthropocene*, 2017-11-27 Encyclopedia of the Anthropocene Five Volume Set presents a currency-based global synthesis cataloguing the impact of humanity's global ecological footprint. Covering a multitude of aspects related to Climate Change, Biodiversity, Contaminants, Geological Energy, and Ethics, leading scientists provide foundational essays that enable researchers to define and scrutinize information, ideas, relationships, meanings, and ideas within the Anthropocene concept. Questions widely debated among scientists, humanists, conservationists, politicians, and others are included, providing discussion on when the Anthropocene began, what to call it, whether it should be considered an official geological epoch, whether it can be contained in time, and how it will affect future generations. Although the idea that humanity has driven the planet into a new geological epoch has been around since the dawn of the 20th century, the term Anthropocene was only first used by ecologist Eugene Stoermer in the 1980s and hence popularized in its current meaning by atmospheric chemist Paul Crutzen in 2000. Presents comprehensive and systematic coverage of topics related to the Anthropocene with a focus on the Geosciences and Environmental science. Includes point-counterpoint articles debating key aspects of the Anthropocene, giving users an even-handed navigation of this complex area. Provides historic seminal papers and essays from leading scientists and philosophers who demonstrate changes in the Anthropocene concept over time
