

Analyze

1. See Data Table.
2. See Data Table.
3. See Data Table. Sample Calculation for Pluto: $e = 4/16 = 0.25$
4. See Data Table.
5. Both foci are at the center.
6. It is very close to being a circle.
7. The comet. It looks more flattened out than the other orbits.

Conclude and Apply

1. Yes, the planets and comet travel in elliptical orbits.
2. Since the eccentricity of Earth is so small, Kepler might not have concluded that planets have elliptical orbits.
3. It travels fastest at perihelion. According to Kepler's second law, equal areas are swept out in equal time. Since there is less area available at perihelion, the planet must move faster.

$$4. \frac{v_P}{v_A} = \frac{A}{P} = \frac{10.0}{6.0} = \frac{1.7}{1}$$

5. $v_A =$ minimum velocity
 $= 3.7 \text{ km/s}$
 $v_P = 1.7 \times v_A$
 $= 1.7 \times 3.7 \text{ km/s}$
 $= 6.3 \text{ km/s}$

Going Further

1. Collect data using dates of location of a planet. Use areas and dates to confirm the second law.
2. In order to show the third law, a computer model would have a planet actually moving so that periods and distances could be measured.

Real-World Physics

Students can research elliptical orbits of satellites. Encourage the students to pick one or two satellites and, if possible, plot orbit data to determine the path that each satellite takes.

learning as a process that takes time introspection and persistence Students who experience JiTT come to class better prepared and report that it helps to focus and organize their out of class studying Their responses to JiTT questions make gaps in their learning visible to the teacher prior to class enabling him or her to address learning gaps while the material is still fresh in students minds hence the label just in time JiTT questions differ from traditional homework problems in being designed not only to build cognitive skills but also to help students confront misconceptions make connections to previous knowledge and develop metacognitive thinking practices Students consequently spend more time on course concepts and ideas but also read their textbooks in ways that result in more effective and deeper learning Starting the class with students work also dramatically changes the classroom learning environment creating greater student engagement This book demonstrates that JiTT has broad appeal across the academy Part I provides a broad overview of JiTT introducing the pedagogy and exploring various dimensions of its use without regard to discipline Part II of the book demonstrates JiTT's remarkable cross disciplinary impact with examples of applications in physics biology the geosciences economics history and the humanities Just in Time Teaching article from The Hispanic Outlook in Higher Education Reprinted with permission from Hispanic Outlook in Higher Education Magazine www.hispanicoutlook.com **AAPT Announcer** American Association of Physics Teachers, 1981 *Fundamentals of Physics, Part 4 (Chapters 33-37)* David Halliday, Robert Resnick, Jearl Walker, 2004-05-05 Finally an interactive website based on activities you do every day The new Halliday Resnick Walker 7 e eGrade Plus program provides the value added support that instructors and students want and need Powered by Wiley's EduGen system this site includes a vast array of high quality content including Homework Management An Assignment tool allows instructors to create student homework and quizzes using dynamic versions of end of chapter problems from Fundamentals of Physics or their own dynamic questions Instructors may also assign readings activities and other work for students to complete A Gradebook automatically grades and records student assignments This not only saves time but also provides students with immediate feedback on their work Each student can view his or her results from past assignments at any time An Administration tool allows instructors to manage their class rosters on line A Prepare and Present tool contains a variety of the Wiley provided resources including all the book illustrations java applets and digitized video to help make preparation time more efficient This content may easily be adapted customized and supplemented by instructors to meet the needs of each course Self Assessment A Study and Practice area links directly to the multimedia version of Fundamentals of Physics allowing students to review the text while they study and complete homework assignments In addition to the complete on line text students can also access the Student Solutions Manual the Student Study Guide interactive simulations and the Interactive LearningWare Program Interactive LearningWare Interactive LearningWare leads the student step by step through solutions to 200 of the end of chapter problems from the text And there's lots more You'll need to see it to believe it Check out the Halliday Resnick Walker site at www.wiley.com/college/halliday [Manual of Civil Air Regulations](#)
