16th European Conference on Innovation and Entrepreneurship Vol

2 Dr. Florinda Matos, Prof. Maria de Fátima Ferreiro, Prof. Álvaro Rosa, Prof. Isabel Salavisa, 2021-09-16 Understanding Media Policy in the 21st Century: Affirmation, Challenge, Re-Constitution Seamus Simpson, Manuel Puppis, Hilde Van den Bulck, 2025-10-27

Media policy plays a central role in shaping the evolution of the structure and functioning of media systems. In understanding the opportunities and problems arising from the functioning of and innovation within the media sector, media policy makers now face some of the greatest challenges in the history of mass and personal communication. Freedman (2008) defines media policy as the systematic attempt to foster certain types of media structure and behavior and to suppress alternative modes of structure and behavior, a process taken part in unevenly by individual and group actors comprising institutions of government and governance, firms, civil society and people. This challenge mirrors the one faced by scholars of media policy themselves. Academic research on media policy matters reflects the complex, nuanced, controversial and contested character of human communication. It is a dynamic and varied field, constantly in search of refined and new ways of determining causal relationships characterizing complex phenomena and providing solutions to deliver better understandings of fast-evolving communications environments. Simpson, Puppis and Van den Bulck (2016) This Research Topic invites contributions that provide a better understanding of the core range of media policy challenges faced by policy makers in the contemporary media system. The following questions will be explored: What are the current matters of controversy? What are the core positions in key debates? Who are the main individual/group actors in the debates? What are the main affordances held by each party and how is this playing out in terms of the current outcome? What are the likely policy outcomes and their implications in the future? To what extent is the policy area in question characterized by both continuity and change? What does the policy case tell us about the nature of media policy in the 2020s? This Research Topic calls for contributions ranging across the media system and may focus on networks and infrastructures, platforms, search, social media and commercial media services, media content. The Topic theme invites contributions that explore media policy matters from conceptual, theoretical, empirical and dualistic perspectives. Theoretical and conceptual analyses should illuminate the

position role and dynamic interplay between key actors interests and institutions of media policy Often theoretical analyses of recent and current media policy matters lead to conceptual problematization and thence new explanations that bring the state of the art forward Empirical contributions can be goods and service provider consumer user citizen regulator and state focused or any combination thereof Potential subject areas might be though are by no means limited to policies for the digital economy and commerce the changing and enduring nature of policies for telecommunications and the audiovisual sector including public service media policy responses to the challenges and problems arising from the use of artificial intelligence across media content and services policy challenges and responses in journalism media policy as an environmental matter We invite contributions with various national international regional or global focuses Contributions from cases in the Global South are particularly welcome as are articles that tackle pressing media policy matters from the perspective of equality diversity and inclusiveness

You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
