## Communication Ben Cultures:

**Folk Culture in the Digital Age** Trevor J. Blank, 2012-11-16 Smart phones tablets Facebook Twitter and wireless Internet connections are the latest technologies to have become entrenched in our culture. Although traditionalists have argued that computer mediated communication and cyberspace are incongruent with the study of folklore Trevor J Blank sees the digital world as fully capable of generating transmitting performing and archiving vernacular culture. Folklore in the Digital Age documents the emergent cultural scenes and expressive folkloric communications made possible by digital new media technologies. New media is changing the ways in which people learn share participate and engage with others as they adopt technologies to complement and supplement traditional means of vernacular expression. But behavioral and structural overlap in many folkloric forms exists between on and offline and emerging patterns in digital rhetoric mimic the dynamics of previously documented folkloric forms invoking familiar social or behavior customs linguistic inflections and symbolic gestures. Folklore in the Digital Age provides insights and perspectives on the myriad ways in which folk culture manifests in the digital age and contributes to our greater understanding of vernacular expression in our ever changing technological world.
