

## Comparison Word Problems

Write the correct equation to find the answer.

Sophia got 21 coins in a video game. Jeff got 3 fewer coins than Sophia. Mike got 6 more coins than Jeff. How many coins did Jeff and Mike get?

Jeff got  coins.

Mike got  coins.

Louis used 19 building blocks to build a tower. Andrew used 5 more building blocks than Louis. Emma used 7 fewer building blocks than Andrew. How many building blocks did Andrew and Emma use?

Andrew used  building blocks.

Emma used  building blocks.

## Comparison Word Problems Second Grade

**John A. Van de Walle**

## **Comparison Word Problems Second Grade:**

Math Instruction for Students with Learning Problems Susan Perry Gurganus, 2017-02-24 Math Instruction for Students with Learning Problems Second Edition provides a research based approach to mathematics instruction designed to build confidence and competence in pre and in service PreK 12 teachers This core textbook addresses teacher and student attitudes toward mathematics as well as language issues specific mathematics disabilities prior experiences and cognitive and metacognitive factors The material is rich with opportunities for class activities and field extensions and the second edition has been fully updated to reference both NCTM and CCSSM standards throughout the text and includes an entirely new chapter on measurement and data analysis

Mathematize It! [Grades 3-5] Sara Delano Moore, Kimberly

Morrow-Leong, Linda M. Gojak, 2019-09-04 The list of math books to truly synthesize what we know so far and what we need to know is a very short and exclusive list Well you can confidently add Mathematize It to this collection Written by three of the most respected math educators today the book zeros in on that often poorly traveled journey between the question and answer in problem solving Mathematize It will be your go to resource to install the mathematical play revolution in elementary classes everywhere Suni Singh Author of Pi of Life the Hidden Happiness of Mathematics and Math Recess Playful Learning in an Age of Disruption Help students reveal the math behind the words I don t get what I m supposed to do This is a common refrain from students when asked to solve word problems Solving problems is about more than computation Students must understand the mathematics of a situation to know what computation will lead to an appropriate solution Many students often pluck numbers from the problem and plug them into an equation using the first operation they can think of or the last one they practiced Students also tend to choose an operation by solely relying on key words that they believe will help them arrive at an answer which without careful consideration of what the problem is actually asking of them Mathematize It Going Beyond Key Words to Make Sense of Word Problems Grades 3 5 shares a reasoning approach that helps students dig into the problem to uncover the underlying mathematics deeply consider the problem s context and employ strong operation sense to solve it Through the process of mathematizing the authors provide an explanation of a consistent method and specific instructional strategies to take the initial focus off specific numbers and computations and put it on the actions and relationships expressed in the problem Sure to enhance teachers own operation sense this user friendly resource for Grades 3 5 Offers a systematic mathematizing process for students to use when solving word problems Gives practice opportunities and dozens of problems to leverage in the classroom Provides specific examples of questions and explorations for all four operations addition subtraction multiplication and division with whole numbers fractions and decimals Demonstrates the use of concrete manipulatives to model problems with dozens of short videos Includes end of chapter activities and reflection questions How can you help your students understand what is happening mathematically when solving word problems Mathematize it

**Teaching Early Algebra through Example-Based Problem Solving**

Meixia Ding,2021-04-07 Drawing on rich classroom observations of educators teaching in China and the U S this book details an innovative and effective approach to teaching algebra at the elementary level namely teaching through example based problem solving TEPS Recognizing young children s particular cognitive and developmental capabilities this book powerfully argues for the importance of infusing algebraic thinking into early grade mathematics teaching and illustrates how this has been achieved by teachers in U S and Chinese contexts Documenting best practice and students responses to example based instruction the text demonstrates that this TEPS approach which involves the use of worked examples representations and deep questions helps students learn and master fundamental mathematical ideas making it highly effective in developing algebraic readiness and mathematical understanding This text will benefit post graduate students researchers and academics in the fields of mathematics STEM and elementary education as well as algebra research more broadly Those interested in teacher education classroom practice and developmental and cognitive psychology will also find this volume of interest

*The Important Role of the Early School Years for Reading, Writing and Math Development: Assessment and Intervention at School Entry* Christoph Weber,Martin Schöfl,Susanne Seifert ,Natalie Förster,2025-12-01 School entry is a critical life event for young children Students begin this new phase of their lives with very different abilities due to their individual characteristics previous experiences and education While some children hardly know any letters or numbers others can already read write and calculate quite fluently To optimally support young learners according to their respective starting conditions teachers must recognize students learning prerequisites and adapt instruction to students needs To this end both valid and economical assessments as well as effective and differentiated interventions are needed This Research Topic addresses new developments in early assessments and assessment based interventions around the time of school entry from the last year before enrollment until second grade In particular this Research Topic aims to bring together research that directly contributes to assessing children s difficulties and providing evidence based support We highly welcome new innovative approaches from the fields of education didactics and psychology that focus on the assessment and assessment based instruction in reading writing and maths Any empirical studies that help to improve the assessment and assessment based interventions for the competencies mentioned are welcome We are looking for empirical quantitative or qualitative studies dealing with the target group of children around the age of school entry last year of kindergarten to second grade elementary school that include at least one of the following topics the presentation or testing of new assessment procedures that focus on performance in and prerequisites for reading writing and maths assessment based interventions both whole class or individual approaches in reading writing and maths the co development of sub skills in reading writing and maths and consequences for assessment and intervention Please note that manuscripts without prior submission of an abstract will not be considered for the research topic **Analysis of Arithmetic for Mathematics Teaching** Gaea Leinhardt,Ralph Putnam,Rosemary A. Hattrup,2020-11-25 This volume emerges from a partnership between the American Federation of

Teachers and the Learning Research and Development Center at the University of Pittsburgh The partnership brought together researchers and expert teachers for intensive dialogue sessions focusing on what each community knows about effective mathematical learning and instruction The chapters deal with the research on and conceptual analysis of specific arithmetic topics addition subtraction multiplication division decimals and fractions or with overarching themes that pervade the early curriculum and constitute the links with the more advanced topics of mathematics intuition number sense and estimation Serving as a link between the communities of cognitive researchers and mathematics educators the book capitalizes on the recent research successes of cognitive science and reviews the literature of the math education community as well *Math Instruction for Students with Learning Difficulties* Susan Perry Gurganus,2021-11-29 This richly updated third edition of Math Instruction for Students with Learning Difficulties presents a research based approach to mathematics instruction designed to build confidence and competence in preservice and inservice PreK 12 teachers Referencing benchmarks of both the National Council of Teachers of Mathematics and Common Core State Standards for Mathematics this essential text addresses teacher and student attitudes towards mathematics as well as language issues specific mathematics disabilities prior experiences and cognitive and metacognitive factors Chapters on assessment and instruction precede strands that focus on critical concepts Replete with suggestions for class activities and field extensions the new edition features current research across topics and an innovative thread throughout chapters and strands multi tiered systems of support as they apply to mathematics instruction **Elementary and Middle School Mathematics** John A. Van de Walle,1998 John A Van de Walle has written a book that helps readers make sense of mathematics and become confident in their ability to teach mathematics to children K to 8 Elementarty and Middle School Mathematics consists of 16 chapters reflecting the view that all mathematics can be taught through a problem solving approach that motivates children and builds their confidence as they learn This book thoroughly discusses the new standards and clearly develops four key aspects of teaching mathematics the nature of mathematics as a science of pattern and order an understanding of how children learn mathematics a problem solving view of teaching mathematics and specific methods for integrating assessment with instruction Simple yet effective classroom activities are woven throughout the chapters as well as suggestions for technology and literature **Annual Report of the Detroit Public Schools** Detroit Public Schools,1930 **Proceedings of the ... International Conference for the Psychology of Mathematics Education** International Group for the Psychology of Mathematics Education,1986 The Proceedings of PME XI has been published in three separate volumes because of the large total of 161 individual conference papers reported Volume I contains four plenary papers all on the subject of constructivism and 44 commented papers arranged under 4 themes Volume II contains 56 papers 39 commented 17 un-commented arranged under 9 themes Volume III contains 53 papers arranged under 17 themes and 4 Research Agenda Project papers Due to space limitations the subject content of these volumes will be represented by listing the 30 themes used to categorize the

papers Volume I 1 Affective Factors in Mathematics Learning 2 Algebra in Computer Environments 3 Algebraic Thinking 4 Fractions and Rational Numbers Volume II 5 Geometry in Computer Environments 6 In Service Teacher Training 7 Mathematical Problem Solving 8 Metacognition and Problem Solving 9 Ratio and Proportion 10 Number and Numeration 11 Addition and Subtraction 12 Rationals and Decimals 13 Integers Volume III 14 Cognitive Development 15 Combinatorics 16 Computer Environments 17 Disabilities and the Learning of Mathematics 18 Gender and Mathematics 19 Geometry 20 High School Mathematics 21 Effect of Text 22 Socially Shared Problem Solving Approach 23 Didactic Engineering 24 Curriculum Projects 25 Affective Obstacles 26 Instructional Strategies 27 Measurement Concepts 28 Philosophy Epistemology Models of Understanding 29 Pre Service Teacher Training 30 Tertiary Level Each volume contains an author index covering all three volumes MKR Some Problems in City School Administration George Drayton Strayer, 1916 **Word Problem** All Educate School, 2017-11-06 Word Problems 2nd Grade Word Problems for Grade 2 Addition Subtraction Word Problems within Twenty Ideal for Special Education Math Workbooks for 1st Grade 2 Word Problems This pack includes 35 addition and subtraction word problems 2nd grade within twenty They are designed to be used during group instruction as journal pages and or as homework Once students are familiar with the format these are also handy for morning work If you are looking for similar Addition and Subtraction 2nd grade math word problems within Ten These problems are designed with the rigor of the Common Core in mind and support the following standard CCSS Math Content 1 OA A 1 Use addition and subtraction within 20 to solve word problems for grade 2 involving situations of adding to taking from putting together taking apart and comparing with unknowns in all positions e g by using objects drawings and equations with a symbol for the unknown number to represent the problem Students are presented with multiple ways to solve each problem Once students are familiar with the ways these sheets support their problem solving I often have each student choose at least 2 ways to show and check their work This allows each student to utilize the methods that are most efficient for him her I love to give students time to discuss why they chose certain methods to solve a problem Each sheet includes a related extension bonus question at the bottom These questions can be used in a variety of ways These bonus questions are perfect extension activities for students to discuss and complete at home with a family member I love to see the extension work that students return Many parents have commented that they appreciate the challenging nature of these questions When these word problems grade 2 are used for whole group instruction it is common for some students to have completed tasks while others still need support Early finishers can read the bonus question flip their paper over and work on this challenge question while the teacher provides individual and or small group instruction as needed In this way these bonus questions help teachers differentiate during group lessons Please note This resource is included in the following bundle 100 Addition Subtraction Word Problems within Twenty Do your students need practice with word problems for grade 1 with 3 addends Here s a set to check out Addition word problems 1st grade with Three Addends Includes Bonus Questions with Each Problem Many thanks

for stopping by and taking a look Sincerely Enjoy All Educate School      **The Mathematics Educator** ,2004      Education is Not a Spectator Sport Willard R. Daggett,Benedict Kruse,1997      **A Longitudinal Study of Mathematical Achievement in the Primary School Years: Curriculum and Socio-economic Comparisons and Predictions from Previous Achievement** Irene Rosenthal-Hill,1971      Some Examples of Cognitive Task Analysis with Instructional Implications James G. Greeno,1979 Analyses are described of knowledge structures used to understand and solve problems in high school geometry and in primary grade arithmetic word problems Analysis of geometry problem solving has clarified the nature of strategic knowledge needed by students and raises the question whether more explicit training in strategies would be beneficial in school instruction Analysis of semantic knowledge needed to understand word problems raises questions about relationships between students learning of computational procedures and their understanding of general types of quantitative relationships Author      **Linkage Between Formal Knowledge and Informal Knowledge** Wen-Huan Tsai,1996      **Number Sense and Operations in the Primary Grades** Carne Barnett-Clarke,2003 Provides practice based materials for teaching mathematic concepts in grades K 2 Addresses many hard to teach and learn concepts including place value number sentences basic facts addition subtraction and regrouping      **Comparison of Mathematical Achievement of Children Using Mathematics Their Way** Margaret Gericke Slakey,1984      **Catalogue of the Ann Arbor Public Schools for the Academic Year** ,1879      *ELMA Reports* School Mathematics Study Group.
