Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used

mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment

**Review** Connie Henke Yarbro, Debra Wujcik, Barbara Holmes Gobel, 2020-02-26 Breast Care Certification Review Second Edition is the ultimate learning package to help prepare oncology nurses become certified in caring for patients with breast cancer It provides numerous practice questions with answer rationales making it the essential guide for nurses planning to sit for the Certified Breast Care Nurse CBCN exam *Comparative Perspectives on Inquiry-Based Science Education* Bevins, Stuart, Lehané, Louise, Booth, Josephine, 2019-03-15 The core practice of professional scientists is inquiry often referred to as research If educators are to prepare students for a role in the professional scientific and technological

community exposing them to inquiry based learning is essential Despite this inquiry based teaching and learning IBTL remains relatively rare possibly due to barriers that teachers face in deploying it or to a lack of belief in the teaching community that inquiry based learning is effective Comparative Perspectives on Inquiry Based Science Education examines stories and experiences from members of an international science education project that delivered learning resources based around guided inquiry for students to a wide range of schools in 12 different countries in order to identify key themes that can provide useful insights for student learning teacher support and policy formulation at the continental level The book provides case studies across these 12 different settings that enable readers to compare and contrast both practice and policy issues with their own contexts while accessing a cutting edge model of professional development It is designed for educators instructional designers administrators principals researchers policymakers practitioners and students seeking current and relevant research on international education and education strategies for science courses

*Reading the Story in DNA*  
Lindell Bromham, 2008 The world is full of DNA The salad in your sandwich the pollen in the air even the dirt on your shoes contains DNA from which a vast amount of information can be gained including the identification of individuals and species the structure and distribution of populations the origins of lineages and the pace and mechanisms of evolutionary change Reading the story in DNA is a beginner's guide to molecular evolution and is the perfect companion on the journey to a proper understanding of molecular data The central theme of the book is that in order to get ecological or evolutionary information out of molecular data you must understand the way that the molecular data evolves and the influence that the assumptions you make have on the answers you get The book blends beautifully clear explanations with cutting edge examples from the research literature drawing on the fields of biodiversity conservation biology epidemiology phylogeography evolutionary development and ancient DNA to explore topics such as molecular evolutionary theory phylogenetics molecular clocks detecting selection and recombination and identifying individuals from molecular data Technical detail is set apart from the main text allowing the student to approach the material in different ways read only the text and skip the finer details use the text to understand the technical details or vice versa or identify key case studies and read the concepts and methods particular to that case Features The first text to make the use of molecular data in whole organism biology truly accessible to students Engaging yet highly informative writing style captures the author's genuine and infectious passion for her subject Stunning full color presentation is the perfect complement to the author's written prose Blends clear straightforward explanations with cutting edge case studies there is no sacrifice of content for the sake of accessibility Avoids mathematical and statistical detail to focus on the conceptual basis of molecular analysis Unique combination of text technical information and case studies enables flexible use in whatever way works for the reader Online Resource Centre features additional resources for both lecturers and students For instructors the Online Resource Centre features figures from the book in electronic format ready to download and tutorial exercises and practical projects For

students the website offers annotated weblinks a flashcard glossary topical updates and links to relevant journal articles and websites that describe advancements in the field since the book's publication     **Emerging Infectious Diseases** ,2003-07
