Revue Anthropologie des connaissances, Vol. 2 collectif, 2014-06-02 La Revue d'anthropologie des Connaissances se propose d'explorer un champ de réflexion formé de nombreux travaux la fois théoriques et pratiques qui visent à montrer comment la connaissance se forme et se diffuse. La revue publie des articles en provenance des sciences sociales qui s'attachent à étudier des connaissances pratiques comme discours, comme pratiques ou comme dispositifs techniques sur les conditions de leur production, de leur utilisation, de leur transmission et plus largement de leur mobilisation par les collectifs d'humains. Le terme anthropologie est pris ici non pas dans son sens particulier mais au sens général d'enquête multidisciplinaire sur les pratiques et les conduites, sur les représentations et les idéologies sur les professions, les organisations et les institutions, sur les techniques et les productions dans leurs singularités historiques.

La génération inoxydable Michel Cicurel, 2014-04-01 Les pays riches ne font plus d'enfants. La science prolonge la vie. La génération du baby boom compte ses premiers cheveux gris. Bref, dans vingt ans, tomberait le cercle des vieux. Pour Michel Cicurel, ce mauvais préjugé repose sur un formidable contresens : les quadras d'aujourd'hui ne seront pas demain des vieux semblables, ceux que l'on a connus. Ils seront eux seuls un marché porteur et leur dynamisme pourrait bien stimuler nos sociétés de cliniques. On assiste ainsi à la naissance d'une génération inoxydable, celle d'hommes et de femmes qui, soixante ans plus tard, seront des quadragénaires avec vingt ans de plus. Car cette génération inoxydable a des ressources prometteuses. Elle n'a pas vécu les grands malheurs de ses parents, elle n'a pas reçu les bonheurs clefs en main de ses fils, et elle a les moyens biologiques et culturels de se offrir des lendemains. En d'autres termes, Michel Cicurel, 42 ans, appartient à cette génération charnière. Il lui promet ici un nouvel耕地 la condition qu'elle sache accueillir la métamorphose de ses nouveaux vieux. On aura compris que cet essai ne se prive pas de bousculer la plupart des préjugés qui nous encombrent.

Renewing innovation systems in agriculture and food E. Coudel, H. Devautour, C.T. Soulard, G. Faure, B. Hubert, 2013-03-15 Present day society asks more from agriculture than just the production of food. Agriculture is now required to be concerned with the quality of food, ecosystem services, inclusion of marginalized populations, revitalization of rural territories, energy production, etc. This opening up of the future of agriculture encourages rural actors to experiment with new farming systems using imagination, creativity and determination to replace dominant models. At the same time, low cost mass production systems continue on their way with promises of a future based on green technologies. In this discussion, it is important to consider what kind of sustainable development societies really want. Which innovations will help in achieving these developments? What role can research and public policies play in supporting the emergence of these innovations? This book takes the debate beyond the purely technical options and considers social and institutional innovations as well. It demonstrates that innovation is the result of a confrontation between visions of actors who often have divergent interests. There is no single path towards sustainable development and we must find ways to encourage the emergence and co-existence of different types of agriculture and food systems. The success of transitions will

not only depend on our capacity to rethink existing models but especially on our willingness to embark on a creative learning process from which we will inevitably emerge transformed **Miss L et Monsieur Perruchet** Magali Hack,2021-01-25

Entre passé et présent l'œuvre de Magali Hack nous ramène l'époque de nos années collégiales. A partir du portrait de deux professeurs et du récit de leur perte tout en explorant la mémoire du souvenir l'autrice rend ici hommage au maître d'enseignant. Tout en tant autobiographique et très personnel ce récit se présente comme une analyse de l'impact d'un enseignant sur un adolescent et revêt une dimension plus collective et universelle. *Un village en forêt* Jacqueline
