Case Projects- Chapter 6

Case Project 6-1: Designing a Wireless Network for Roaming Team Members

I would recommend Chester Jeffers and Community College (CJC) implement a wireless network that authenticates users by technology. I would install service probes that would allow the staff to monitor or the network in between values for in their office. I would monitor for college advancement as a using laptops. If so I would recommend they purchase laptops. I would get access points in areas that normally do not have or have limited access to the current data lab.
