## **Conceiving Cuba Reproduction Women And The State In The Post Soviet Era:**

**Conceiving Cuba** Elise Andaya, 2014-05-30 After Cuba's 1959 revolution the Castro government sought to instill a new social order. Hoping to achieve a new and egalitarian society the state invested in policies designed to promote the well being of women and children. Yet once the Soviet Union fell and Cuba's economic troubles worsened these programs began to collapse with serious results for Cuban families. *Conceiving Cuba* offers an intimate look at how with the island's political and economic future in question reproduction has become the subject of heated public debates and agonizing private decisions. Drawing from several years of first hand observations and interviews anthropologist Elise Andaya takes us inside Cuba's households and medical systems. Along the way she introduces us to the women who wrestle with the difficult question of whether they can afford a child as well as the doctors who with only meager resources at their disposal struggle to balance the needs of their patients with the mandates of the state. Andaya's groundbreaking research considers not only how socialist policies have profoundly affected the ways Cuban families imagine the future but also how the current crisis in reproduction has deeply influenced ordinary Cubans' views on socialism and the future of the revolution. Casting a sympathetic eye upon a troubled state *Conceiving Cuba* gives new life to the notion that the personal is always political. *Cuba's Forgotten Decade*

Anna Clayfield, Emily J. Kirk, Isabel Story, 2018-08-24 The 1970s have largely been overlooked in scholarly studies of the Cuban Revolution or at the very least dismissed simply as a period of Sovietization characterized by widespread bureaucratization, institutionalization and adherence to Soviet orthodoxy. Consequently scant research exists that examines the major changes that took place across the decade and their role in determining the course of the Revolution. This book provides for the first time a comprehensive assessment of the 1970s which challenges prevailing interpretations. Drawing from multidisciplinary perspectives and exploring a range of areas including politics, international relations, culture, education and healthcare its contributing authors demonstrate that the decade was a time of intense transformation which proved pivotal to the development of the Revolution. Indeed many of the ideas, approaches, policies and legislation developed and tested during the 1970s maintain a very visible legacy in contemporary Cuba. In highlighting the complexity of the 1970s this volume ultimately aims to contribute to a greater understanding of the Cuban Revolution and how it chooses to face the challenges of the twenty first century. **Laboring for the State**

Rachel Hynson, 2020-01-23 The Cuban revolutionary government engaged in social engineering to redefine the nuclear family and organize citizens to serve the state. [Kinship, Love, and Life Cycle in Contemporary Havana, Cuba](#)

*Legal Experiments for Development in Latin America* Helena Alviar García, 2021-02-22 This book provides a nuanced picture of how diverse legal debates on the pursuit of economic development and modernization have played out in Latin America since independence The opposing concepts of modernization theory and Dependency Theory can be seen to be playing out within the field of legal transformation as some legal analysts define law as a closed formal rational system and others see law as inseparable from economic social and political change Legal experiments have followed these trends in some cases using legal instruments to guarantee classical civil and political rights and in others demanding radical transformation of existing legal structures This book traces these debates across the key topics of economic development and foreign investment property resource and power distribution in terms of gender and social policy Drawing on a wide range of literature the book adds complexity and color to our understanding of these themes in Latin America This insightful exploration of comparative law within Latin America provides the tools needed to understand legal transformation in the region and as such will be of interest to researchers within law political sociology development and Latin American studies

*Pregnant at Work* Elise Andaya, 2024-03-05 A compelling analysis of time care and social inequality told through the lens of pregnant low wage service workers and their efforts to access safety net prenatal care in New York City *Reproduction, Medicine and the Socialist State* Alena Heitlinger, 1987-06-18 *Women's Work in Special Period Cuba* Daliany Jerónimo Kersh, 2019-02-28 The abrupt loss of Soviet financial support in 1989 resulted in the near collapse of the Cuban economy

ushering in the almost two decades of austerity measures and severe shortages of food and basic consumer goods referred to as the Special Period Through the innovative framework of individual and collective memory Daliany Jer nimo Kersh brings together analysis of press sources and oral histories to offer a compelling portrait of how Cuban women cleverly combined various forms of paid work to make ends meet Disproportionately impacted by the economic crisis given their role as primary caregivers and household managers and unable to survive on devalued state salaries alone women often employed informal and illegal earning strategies As she argues this regression into gendered work such as cooking sewing cleaning reselling and providing sexual services precipitated by the post Soviet crisis to a large extent marked a return to pre revolutionary gendered divisions of labor

**Race and Reproduction in Cuba** Bonnie A. Lucero, 2022-11 Women's reproduction including conception pregnancy childbirth breastfeeding and other physical acts of motherhood as well as the rejection of those roles played a critical role in the evolution and management of Cuba's population While existing scholarship has approached Cuba's demographic history through the lens of migration both forced and voluntary *Race and Reproduction in Cuba* challenges this male normative perspective by centering women in the first book length history of reproduction in Cuba Bonnie A Lucero traces women's reproductive lives as well as key medical legal and institutional interventions influencing them over four centuries Her study begins in the early colonial period with the emergence of the island's first charitable institutions dedicated to relieving poor women and abandoned white infants The book's centerpiece is the long nineteenth century when elite interventions in women's reproduction hinged not only on race but also legal status It ends in 1965 when Cuba's nascent revolutionary government shifted away from enforcing antiabortion laws that had historically targeted impoverished women of color Questioning how elite demographic desires specifically white population growth and nonwhite population management shaped women's reproduction Lucero argues that elite men including judges physicians philanthropists and public officials intervened in women's reproductive lives in racially specific ways Lucero examines how white supremacy shaped tangible differences in the treatment of women and their infants across racial lines and outlines how those reproductive outcomes were crucial in sustaining racial hierarchies through moments of tremendous political economic and social change

**Replacing the Dead** Mie Nakachi, 2021 In 1955 the Soviet Union re legalized abortion on the basis of women's rights However this fact is not widely known In the absence of a feminist movement how did the idea of women's rights to abortion emerge in an authoritarian society decades before it appeared in the West The answer is found in the history of the Soviet politics of reproduction after World War II a devastation in which 27 million Soviet soldiers and civilians perished This enormous loss of predominantly adult males posed a threat to economic recovery In order to replace the dead the Soviet Union introduced the 1944 Family Law based on the proposal submitted by Nikita S Khrushchev This extreme pronatalist policy encouraged men to father out of wedlock children and celebrated Mother Heroines However *Replacing the Dead* argues that in the absence of serious commitment to supporting Soviet women who worked full time the policy actually

did extensive collateral damage to gender relations and the welfare of women and children Replacing the Dead finds the origin of the movement to improve women s reproductive environment in postwar social critique arising from women and Soviet professionals Neither Stalin nor Khrushchev allowed any major reform but the movement did not die out With relegalization and lack of contraception an abortion culture grew among Soviet women The model of socialist reproduction continues to set socialist and postsocialist countries apart This history is a cautionary tale for today s Russia as well as other countries that attempt to promote births      *Caviar with Rum* J. Loss,J. Prieto,2012-09-05 Consisting of sixteen essays by renowned writers and artists Caviar with Rum Cuba USSR and the Post Soviet Experience is the first book of its kind to bring to life how and why the Soviet period is revisited in Cuban memory these days and what that means for creative production and the future of geopolitics      **Laboring for the State** Rachel Hynson,2024-04-04 Contrary to claims that socialism opposed the family unit Rachel Hynson argues that the revolutionary Cuban government engaged in social engineering to redefine the nuclear family and organize citizens to serve the state Drawing on Cuban newspapers and periodicals government documents and speeches long overlooked laws and oral histories Hynson reveals that by 1961 and increasingly throughout this decade revolutionary citizenship was earned through labor While men were to work outside the home in state approved jobs women found their citizenship tied to affording the state control over their reproduction and sexual labor Through all four campaigns examined in this book the projects to control women s reproduction promote marriage end prostitution and compel men into state sanctioned employment Hynson shows that the state s progression toward authoritarianism and its attendant monopolization of morality were met with resistance and counter narratives by citizens who so opposed the mandates of these campaigns that Cuban leadership has since reconfigured or effaced these programs from the Revolution s grand narrative      **Laboring for the State** Rachel Hynson,2019-10-31 Contrary to claims that socialism opposed the family unit Rachel Hynson argues that the revolutionary Cuban government engaged in social engineering to redefine the nuclear family and organize citizens to serve the state Drawing on Cuban newspapers and periodicals government documents and speeches long overlooked laws and oral histories Hynson reveals that by 1961 and increasingly throughout this decade revolutionary citizenship was earned through labor While men were to work outside the home in state approved jobs women found their citizenship tied to affording the state control over their reproduction and sexual labor Through all four campaigns examined in this book the projects to control women s reproduction promote marriage end prostitution and compel men into state sanctioned employment Hynson shows that the state s progression toward authoritarianism and its attendant monopolization of morality were met with resistance and counter narratives by citizens who so opposed the mandates of these campaigns that Cuban leadership has since reconfigured or effaced these programs from the Revolution s grand narrative      **Cuba** North American Congress on Latin America,1995      **Back from the Future** Susan Eckstein,2003 Table of contents      Reproduction Reconceived Sara Matthiesen,2021-10-26 The landmark
