Concise Encyclopedia Of The Original Literature Of Esperanto:

Concise Encyclopedia of the Original Literature of Esperanto, 1887-2007 Geoffrey Sutton, 2008 Illustrating the development of Esperanto literature from its humble beginnings in 1887 to its worldwide use in every literary genre today this text includes over 300 individual articles on the most important Esperanto authors *Esperanto in The New York Times (1887 - 1922)* Ulrich Becker, 2010 This book is a look back at the beginnings of the Esperanto movement in the US and beyond opening a window into contemporaneous accounts on the pages of a world renowned newspaper Some of the articles in this collection reflect aspects of the history of the Esperanto movement quite vividly in others we find odd anecdotes about Esperanto and the Esperantists and many passionately written letters from readers illustrate the ups and downs the successes and conflicts of the Esperanto community as well as its disputes with the skeptics outside their ranks These first 35 years of the history of Esperanto seen from the vantage point of the New York Times show how Esperanto gradually became established in the US and in the world carried on the high hopes of its early idealistic proponents The book is supplemented by an appendix containing an index of the names of persons mentioned in the newspaper articles a short bibliography and a collection of links to reliable information on Esperanto on the Internet **The Routledge Handbook of Literary**

Translingualism Steven G. Kellman, Natasha Lvovich, 2021-09-30 Though it might seem as modern as Samuel Beckett Joseph Conrad and Vladimir Nabokov translingual writing texts by authors using more than one language or a language other than their primary one has an ancient pedigree The Routledge Handbook of Literary Translingualism aims to provide a comprehensive overview of translingual literature in a wide variety of languages throughout the world from ancient to modern times The volume includes sections on translingual genres with chapters on memoir poetry fiction drama and cinema ancient medieval and modern translingualism global perspectives chapters overseeing European African and Asian languages Combining chapters from lead specialists in the field this volume will be of interest to scholars graduate students and advanced undergraduates interested in investigating the vibrant area of translingual literature Attracting scholars from a variety of disciplines this interdisciplinary and pioneering Handbook will advance current scholarship of the permutations of languages among authors throughout time *This Is a Classic* Regina Galasso, 2023-01-26 This Is a Classic illuminates the overlooked networks that contribute to the making of literary classics through the voices of multiple translators without whom writers would have a difficult time reaching a global audience It presents the work of some of today's most accomplished literary translators who translate classics into English or who work closely with translation in the US context and magnifies translators knowledge skills creativity and relationships with the literary texts they translate the authors whose works they translate and the translations they make The volume presents translators expertise and insight on how classics get defined according to language pairs and contexts It advocates for careful attention to the role of translation and translators in reading choices and practices especially regarding literary classics *Anglicisms around the Globe* Henrik

Gottlieb, Anabella-Gloria Niculescu-Gorpin, Alicja Witalisz, Keisuke Imamura, Jaime W. Hunt, 2025-11-14 This collection explores the global impact of English through fact based and contrastive analyses of different types of Anglicisms across a wide range of languages. This volume showcases the ways in which contact induced language change operates across several different languages simultaneously. This approach allows for an examination of similarities and differences in the adaptation processes of English models in languages with differing phonetic, morphological, syntactic and writing systems. Drawing on data from the Global Anglicism Database GLAD, the first multilingual repository featuring lexical and phraseological Anglicisms, chapters look not only at visible Anglicisms such as augmented reality or easy listening which reflect their English origin but also at invisible Anglicisms cases in which English expressions are translated verbatim and cases when words in a recipient language change their meaning due to English influence. This volume offers a multi layered perspective on how Anglicisms develop and blend into different languages and readers are presented with a nuanced understanding of contact induced language change. This book will appeal to students and scholars interested in language contact, World Englishes, language policy and planning, bilingualism and lexicography.
