Concise Guide To Technical Communication 3rd Edition:

A Concise Guide to Technical Communication Heather Graves, Roger Graves, 2020-11-06 This compact but complete guide shows that less is more with fewer extraneous details getting in the way of students trying to learn on the run it allows them to focus on the most important principles of effective technical communication The Concise Guide takes a rhetorical approach to technical communication instead of setting up a list of rules that should be applied uniformly to all writing situations it introduces students to the bigger picture of how the words they write can affect the people intended to read them Assignments and exercises are integrated throughout to reinforce and test knowledge

Exploding Technical Communication Remley Dirk, Charles Sides, 2020-04-29 Within the framework of New Literacy Studies Dirk Remley presents a historical study of how technical communication practices at a World War II arsenal sponsored literacy within the community in which it operated from 1940 to 1960 and contemporary implications of similar forms of sponsorship The Training within Industry TWI methods developed by the U S government and industry at that time included multimodal literate practices particularly combinations of visual oral experiential and print linguistic text Analyses reveal a hierarchy in which print linguistic literacies were generally esteemed at the workplace and in the community This literacy hierarchy contributed to a catastrophic accident that killed 11 people prompting changes in the approach to designing certain training documents This book links technical communication especially the multimodal forms of representation commonly found in technical communication and instructional materials to the concept of literacy sponsorship The TWI methods used in training and system improvement during World War II are currently applied in business and industry as part of the lean operating and continuous improvement philosophies These methods have also become part of the experiential learning philosophy favored in academia Remley includes examples of current applications of multimodal forms of technical communication similar to those used at the arsenal as well as new media related applications related to training and instruction He also discusses their implications for literacy sponsorship This book provides useful information for technical communication and literacy scholars and educators as well as practical case studies for business leaders consultants and practitioners Intended Audience Scholars in technical communication and literacy writing studies scholars in business especially management and organizational analysis and business communication consultants scholars in history and sociology

Scientific and Technical Communication James H. Collier, David M. Toomey, 1997 Scientific and Technical Communication is a major textbook that represents a new focus area in communication studies It integrates multidisciplinary perspectives on the relations among rhetoric science technology and public policymaking to the process and product of technical communication The text is inspired by science and technology studies STS a field emerging from the history sociology and philosophy of science and technology which also has roots in economics political theory and rhetoric Reformulating the issues raised by STS within the context of technical communication Scientific and Technical Communication is composed of three highly integrated parts

Part I provides a summary critique and alternative to recent theoretical perspectives developed in the rhetoric of science and the sociology of scientific knowledge Part II applies these critical alternatives to the traditional practices of scientific and technical communication and shows how these new practices can be applied to the communication that is vital in forming national and local science and technology policy This hands on introductory textbook will supply students and professionals in the areas of scientific and technical communication rhetoric and media studies with broad based and applicable knowledge in this area
