The Hacker Crackdown Bruce Sterling, 2002-05-01

The Art of Intrusion Kevin D. Mitnick, William L.

Simon, 2009-03-17 Hacker extraordinaire Kevin Mitnick delivers the explosive encore to his bestselling *The Art of Deception*. Kevin Mitnick, the world's most celebrated hacker, now devotes his life to helping businesses and governments combat data thieves, cybervandals, and other malicious computer intruders. In his bestselling *The Art of Deception*, Mitnick presented fictionalized case studies that illustrated how savvy computer crackers use social engineering to compromise even the most technically secure computer systems. Now in his new book, Mitnick goes one step further, offering hair-raising stories of real-life computer break-ins and showing how the victims could have prevented them. Mitnick's reputation within the hacker community gave him unique credibility with the perpetrators of these crimes, who freely shared their stories with him, and whose exploits Mitnick now reveals in detail for the first time, including a group of friends who won nearly a million dollars in Las Vegas by reverse engineering slot machines; two teenagers who were persuaded by terrorists to hack into the Lockheed Martin computer systems; two convicts who joined forces to become hackers inside a Texas prison; a Robin Hood hacker who penetrated the computer systems of many prominent companies and then told them how he gained access. With riveting you-are-there descriptions of real computer break-ins, indispensable tips on countermeasures security professionals need to implement now, and Mitnick's own acerbic commentary on the crimes he describes, this book is sure to reach a wide audience and attract the attention of both law enforcement agencies and the media.

Underground Julian Assange, Suelette Dreyfus, 2012-01-05 Suelette Dreyfus and her co-author WikiLeaks founder Julian Assange tell the extraordinary true story of the computer underground and the bizarre lives and crimes of an elite ring of international hackers who took on the establishment. Spanning three continents and a decade of high-level infiltration, they created chaos amongst some of the world's biggest and most powerful organizations, including NASA and the US military. Brilliant and obsessed, many of them found themselves addicted to hacking and phreaking. Some descended into drugs and madness; others ended up in jail. As riveting as the finest detective novel and meticulously researched, *Underground* follows the hackers through their crimes, their betrayals, the hunt, raids, and investigations. It is a gripping tale of the digital underground.

The Art of Invisibility Kevin Mitnick, 2017-02-14 Be online without leaving a trace. Your every step online is being tracked and stored, and your identity is literally stolen. Big companies and big governments want to know and exploit what you do, and privacy is a luxury few can afford or understand. In this explosive yet practical book, Kevin Mitnick uses true life stories to show exactly what is happening without your knowledge, teaching you the art of invisibility online and real-world tactics to protect you and your family using easy step-by-step instructions. Reading this book, you will learn everything from password protection and smart Wi-Fi usage to advanced techniques designed to maximize your anonymity. Kevin Mitnick knows exactly how vulnerabilities can be exploited and just what to do to prevent that from happening. The world's most famous and formerly the US

government's most wanted computer hacker he has hacked into some of the country's most powerful and seemingly impenetrable agencies and companies and at one point was on a three year run from the FBI Now Mitnick is reformed and widely regarded as the expert on the subject of computer security Invisibility isn't just for superheroes privacy is a power you deserve and need in the age of Big Brother and Big Data *The Hacker Crackdown* Bruce Sterling, 1993-01-01 Om computersikkerhed hacking legale og illegale tiltag i forbindelse med telenettets overgang til edb styring i U S A hvor kursen mod edb anarkisterne i de senere år er strammet kraftigt op fra myndighedernes side
