Art of Class Management and Discipline (Classic Reprint) Joseph S. Taylor, 2018-01-12 Excerpt from Art of Class Management and Discipline The character of an education is necessarily determined by the results which it is designed to accomplish Every age has its own ideals hence the problem of education has to be restated from time to time and a final solution is impossible Among the factors involved in the ideals of mankind are the progress of science and art the industrial and social conditions the political relations of citizens to the state and of the state to other states the religious opinions and aspirations of the people and their inherited physical mental and moral characteristics These considerations should warn us against the folly of attempting to import a ready made system of education from a foreign country From the nature of the case such a system would be a misfit and no matter how excellent in the abstract it could not long endure unmodified in its new habitat About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

School Discipline William Chandler Bagley, 1914 *Art of Class Management and Discipline* Joseph Schimmel Taylor, 1903 *School Discipline (Classic Reprint)* William Chandler Bagley, 2015-07-07 Excerpt from School Discipline The following chapters have been written with the needs and problems of the young teacher primarily in view An effort has been made to present in a concrete way the various steps that may be taken to establish a wholesome school spirit that will reduce disciplinary difficulties to a minimum To this end most of the chapters deal rather with positive and non coercive than with restrictive and repressive methods of treatment By way of introduction the essential characteristics of a well disciplined school are described and the problem of creating these conditions is stated The unruly or disorderly school is then assumed the various causes which lead to disorder are analyzed and the steps that may be taken to transform the situation are discussed in detail with as many typical concrete illustrations as the limitations of space permit Coercive measures are treated briefly following the discussion of the positive measures An attempt has been made to outline the evolution of the idea of punishment as a coercive agency and the different types of penalties commonly employed in the school are described and evaluated About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that

Practical School Discipline (Classic Reprint) Ray Coppock Beery, 2015-07-10 Excerpt from Practical School Discipline The course which you are starting to read is the result of long observation careful study and constant thought in this important field The subject has resolved itself into a very few fundamental principles the proper application of which will invariably get results in the right direction There are no cut and dried rules with which all school room problems can be met yet the wise experience of hundreds of teachers has taught that there are certain principles which can be safely followed and the application of which will unfailingly increase the teacher's success in dealing with troublesome problems About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such
