Data Abstraction and Problem Solving with Java Walls and Mirrors 2e provides a focus on the important concepts of data abstraction and data structures in a way that beginning programmers find accessible. The first part of the book covers problem solving techniques including a review of Java fundamentals principles of programming and software engineering recursion and data abstraction and linked lists. Later chapters focus on problem solving with abstract data types including stacks queues algorithm efficiency and sorting trees and graphs. This edition contains enhanced material on OO implementation MARKET Readers searching for problem solving solutions through abstraction algorithmic refinement data structures and recursion [Data Structures Using Java](#) Yedidyah Langsam, Moshe Augenstein, Aaron M. Tenenbaum, 2003. This book employs an object oriented approach to teaching data structures using Java. Many worked examples and approximately 300 additional examples make this book easily accessible to the reader. Most of the concepts in the book are illustrated by several examples allowing readers to visualize the processes being taught. Introduces abstract concepts shows how those concepts are useful in problem solving and then shows the abstractions can be made concrete by using a programming language. Equal emphasis is placed on both the abstract and the concrete versions of a concept so that the reader learns about the concept itself its implementation and its application. For anyone with an interest in learning more about data structures [Data Abstraction and Problem Solving with Java](#) Frank M. Carrano, Janet J. Prichard, 2001.
