Irwin,1998-10-01 Gnostic Tarot presents an exciting new path for people who want to use the tarot as a guide for spiritual
development Lee Irwin synthesizes the more traditional forms of interpretation with a new esoteric method based on the
contemporary theories of Hermetic and Gnostic spirituality He has developed ten Mandalas akin to tarot spreads for you to
use as meditative structures for contemplating the interconnection between the natural elements and consciousness as
reflected by the imagery of the cards Irwin provides a detailed discussion of the esoteric history and structure of the tarot

Ravenswood and Waite decks His wellwritten and deeply insightful interpretations of tarot imagery will inspire you to see the

World of Science ,1881 **Unity** ,1926 **Pillar of Fire** ,1912 **The Art of Listening** R. S. White,2015-10-23 Originally
published in 1986 This collection of essays is unified by one leading idea that the active and creative abilities of listeners and
readers deserve as much attention as the skills of speakers and writers It is shown that hearers far from being passive
recipients in the communicative process are in fact active in selecting interpreting and creating from the disparate signals
they receive Equally readers are involved in creating individual patterns of significance from a text In presenting this
argument some essays deal with the importance of gender considerations some with special modes of writing such as the
private diary and literary translations and others with the more familiar fields of poetry and drama In the sphere of popular
music distinctions such as folk and pop indicate special problems in assessing the authenticity of a listener s response By
concentrating on active listening the collection develops and illustrates the conviction that there are fundamental premises
underlying the various disciplines under review the analysis of which makes for a fuller understanding of communication in
