**Fancy Bear Goes Phishing** Scott J. Shapiro, 2023-05-23 Unsettling absolutely riveting and for better or worse necessary reading Brian Christian author of Algorithms to Live By and The Alignment Problem An entertaining account of the philosophy and technology of hacking and why we all need to understand it It s a signal paradox of our times that we live in an information society but do not know how it works And without understanding how our information is stored used and protected we are vulnerable to having it exploited In Fancy Bear Goes Phishing Scott J Shapiro draws on his popular Yale University class about hacking to expose the secrets of the digital age With lucidity and wit he establishes that cybercrime has less to do with defective programming than with the faulty wiring of our psyches and society And because hacking is a human interest story he tells the fascinating tales of perpetrators including Robert Morris Jr the graduate student who accidentally crashed the internet in the 1980s and the Bulgarian Dark Avenger who invented the first mutating computer virus engine We also meet a sixteen year old from South Boston who took control of Paris Hilton s cell phone the Russian intelligence officers who sought to take control of a US election and others In telling their stories Shapiro exposes the hackers tool kits and gives fresh answers to vital questions Why is the internet so vulnerable What can we do in response Combining the philosophical adventure of G del Escher Bach with dramatic true crime narrative the result is a lively and original account of the future of hacking espionage and war and of how to live in an era of cybercrime Includes black and white images
