Building Design and Construction

Systems (Bdcs) Are Mock Exam (Architect Registration Exam) Gang Chen,2011 A Practical Mock Exam for the Building Design and Construction Systems BDCS Division of the ARE To become a licensed architect you need to have the proper combination of education and or experience meeting your Board of Architecture s special requirements as well as passing all seven divisions of the Architect Registration Examinations ARE This book provides ARE exam overview resources exam prep and exam taking techniques tips and guides It also provides a realistic and complete set of Mock Exam solutions explanations for the Building Design and Construction Systems BDCS Division of the ARE This book covers the following subjects 1 ARE IDP and Education Requirements 2 ARE Exam Content Format and Prep strategies 3 Principles Selection of Systems Materials and Methods Historic Precedent Human Behavior and Design Theory 4 Environmental Issues Sustainable Design Including Hazardous Material Mitigation Thermal and Moisture Protection and Adaptive Re Use 5 Codes award winning school designs highly acclaimed urban design and streetscape projects multifamily housing high end custom homes and regional and neighborhood shopping centers Gang Chen is a LEED AP BD C and a licensed architect in California He is also the internationally acclaimed author of other fascinating books including Building Construction Planting Design Illustrated ARE Mock Exam Series and LEED Exam Guides Series which include one guidebook for each of the LEED exams For more information visit www.GreenExamEducation.com

Ethics and the Practice of Architecture

Barry Wasserman,Patrick J. Sullivan,Gregory Palermo,2000-03-07 From theory to practice a unique well rounded guide to ethics fortoday s architect How does an architect assist a community in evaluating alternative designs Resolve a dispute with a contractor Take into account a project s impact on the natural environment When it comes to questions like these making decisions about what ought to be

done or what is the best or right solution requires more than sound technical knowledge and strong design talent. It demands a solid understanding of the ethical issues that lie at the heart of architectural practice. Ethics and the Practice of Architecture offers a complete broad based introduction to this crucial subject. First it examines basic ethical theories and their application to architecture and discusses different ways of identifying ethical content in architecture. Bridging the gap between theory and practice, the second part of the book surveys different professional settings and building project processes that frequently hold ethical concerns and charts the ethical mandates that arise from them. In the final section of the book, thirty case studies explore a wide range of ethical dilemmas encountered in architectural practice with useful guidance on how to work through them effectively. Arranged by topics that span the key phases of a project from pre design through post occupancy evaluation, these case studies allow a detailed look at ethical concerns in real life situations where multiple issues are often at stake. Providing a practical framework for the exploration of ethical issues in architecture today, Ethics and the Practice of Architecture is an excellent resource for present and future architects in all areas of the field.

Construction

Documents and Service (CDs): Are Mock Exam (Architect Registration Exam): Are Overview, Exam Prep Tips,

Multiple-Choice Questions and Gra Gang Chen, 2011 A PRACTICAL GUIDE FOR THE CONSTRUCTION DOCUMENTS SERVICE DIVISION OF THE ARE To become a licensed architect you need to have a proper combination of education and/or experience meeting your Board of Architecture's special requirements as well as passing all seven divisions of the Architect Registration Examinations ARE.
