## Daughters Of Distance:

**Daughters of Distance** Vanessa Runs, 2015 What does it mean to be a female in endurance sport Hundreds of women open up about their realities as athletes wives girlfriends and mothers From the intimacy of the bedroom to the community of competition some of these stories will encourage and uplift Others will surprise and infuriate Welcome to the beautiful and complicated world of strong women **Bulletin** ,1929 *The Family Systems Test (FAST)* Thomas M. Gehring, Marianne Debry, Peter K. Smith, 2013-02-01 The Family System Test FAST developed by Thomas M Gehring is an important new tool for investigating family relations Based on the structural systemic theory of families it is a figural technique for representing emotional bonds cohesion and hierarchical structures in the family or similar social systems In this unique volume the editors draw on current theory and research in family or similar social systems together with a variety of empirical studies that have used the FAST to provide a comprehensive overview and assessment of the test and its use in various clinical research contexts The book is divided into four sections each focusing on a different aspect of the FAST Part 1 describes the concepts and psychometric properties of the FAST within the context of theoretically and empirically relevant aspects of the field of family psychology as a whole Special emphasis is given to systematic structural approaches to assessing individual and family functioning Part II focuses on the use of the FAST in developmental research For example the the FAST has been used to show how family constructs are influenced by age type of family and situation Part III deals with cross cultural issues and compares the interpersonal constructs of Japanese and Chinese families to Western families Finally Part IV addresses the applications of the FAST in clinical setting in diagnosis of biopsychosocial problems and planning and evaluation of clinical interventions The result is a book that helps to bridge the gap between theory practice and research It will be essential reading for users of the FAST and all clinicians and researchers who work in family relations and development **Bulletin - Agricultural Experiment Station, North Carolina State College** North Carolina State College. differently to the sexual awakening that takes place during their teens and to their own memories of that part of their life In relating the findings of her research the author also explores to what extent the theories of Freud Jung and feminism shape our understanding of the formative effect of adolescent experiences and emotions Boy Crazy provides a fascinating insight into the repercussions of adolescence on our adult lives and loves and will appeal to the general and specialist reader alike

Mothers-in-Law and Daughters-in-Law Deborah M. Merrill,2007-09-30 We all know have perhaps told a few stories about mothers in law and daughters in law It seems the stories are nearly always about relationships filled with conflict and abrasive words or actions But why is this relationship so difficult And is it always as bad as popular belief would have us think Deborah Merrill a woman s advocate and Sociology professor at one of our nation s top universities has been studying the relationship for nearly a decade and in this book explains where the difficulty is rooted how friendly pairs have made it past problems that surface between a man s mother and his wife and how they became friends Dozens of interviews with pairs of women made in laws by marriage illustrate Merrill s points from harmful ideas and actions to helpful approaches At its core this book holds that marriage requires the creation of a new and separate family which requires changes in roles as well as a redefinition of relationships Hence family boundaries need to be made permeable to allow for integration of the daughter in law and to allow the son to create his own separate and autonomous family Family members need to be aware of and prepare for this says Merrill That of course may be easier said than done But dozens of women who have become friends with their in laws some so much so that they drop the in law and just call each other mother and daughter explain how they got past the old popular notions and social structure to create goodwill and grow stronger families
