

STUDY GUIDE FOR MODULE NO. 2**Unit 2 – Types of Computer Network****MODULE OVERVIEW**

In this module we will discuss the various types of computer networks available. We can classify them according to their size as well as their purpose. The size of a network has to be expressed by the geographic area and number of computers, which are a part of their networks. It includes devices housed in a single room to millions of devices spread across the world.

**MODULE LEARNING OBJECTIVES**

At the end of this, students are expected to:

1. Enumerate and describe the different types of computer network and its implementation.
