Computerization and Controversy Rob Kling,1996 The second edition of this comprehensive reference is a collection of 78 articles that examine the social aspects of computerization from a variety of perspectives Fields represented include computer science information systems management journalism psychology law library science and sociology **Healthy Work** Namir Khan,Nina Nakajima,Willem H. Vanderburg,2004-11-08 The latest in a series focused on improving health conditions this volume addresses work environments bringing together diverse sources of literature that support preventive approaches to work design and organization This reference provides an overview of relevant literature to engineers managers accountants occupational health and safety specialists and industrial hygienists so that they and other professionals can understand what has caused our workplaces to become primary sources of physical and mental illness By focusing on diagnostic and prescriptive approaches managers can implement designs and decisions that prevent or greatly reduce undesired and harmful effects Other titles in the series include Healthy Cities Sustainable Production Sustainable Energy Computerization Movements and Technology Diffusion Margaret S. Elliott,Kenneth L. Kraemer,2008

Computerization movement CM refers to a special kind of social and technological movement that promotes the adoption of computing within organizations and society Through theoretical analyses systematic empirical studies field based studies and case studies of specific technologies the book shows CMs to be driven by Utopian visions of technology that become part of the ether within society The empirical studies presented here show the need for designers users and the media to be aware that CM rhetoric can propose grand visions that never become part of a reality and reinforce the need for critical and scholarly review of promising new technologies Back cover **Impact of Information Technology** Yaacov Katz,Daniel Millin,Baruch Offir,2016-01-09 The aim of this book is to present readers with state of the art options which allow pupils as well as teachers to cope with the social impacts and implications of information technology and the rapid technological developments of the past 25 years The book explores the following key areas the adaption of curricula to the social needs of society the influences of multimedia on social interaction morals values and ethics in the information technology curriculum social and pedagogical variables which promote information technology use and social implications of distance learning through the medium of information technology This volume contains the selected proceedings of the TC3 TC9 International Working Conference of the Impact of Information technology sponsored by the International Federation for Information Processing and held in Israel March 1996 **GIS Diffusion** I. Masser,Heather Campbell,Massimo Craglia,2020-11-25 This third book in the GISDATA series focuses on the widespread use of geographical information systems GIS in European local government The editors include a wide range of applications carried out by different professional groups and offer the opportunity of studying the extent to which diffusion of innovations like GIS are sensitive to national issues such as cultural context institutional setup and the availability of data The book answers key questions such as what can be learnt from

research on organizational behaviour in relation to technological innovation what are the classical features of the GIS diffusion process to what extent is the adoption and utilization of GIS facilitated or impeded by the organizational culture within which it takes place and what mechanisms can be applied to enhance the diffusion of GIS The book covers aspects of diffusion in the following European countries UK France Italy Poland Denmark The Netherlands Germany Greece and Portugal

**International Handbook of Educational Change** Andy Hargreaves,A. Lieberman,M. Fullan,D.W.

Hopkins,1998-05-31 The International Handbook of Educational Change is a state of the art collection of the most important ideas and evidence of educational change The book brings together some of the most influential thinkers and writers on educational change It deals with issues like educational innovation reform restructuring culture building inspection school review and change management It asks why some people resist change and what their resistance means It looks at how men and women older teachers and younger teachers experience change differently It looks at the positive aspects of change but does not hesitate to raise uncomfortable questions about many aspects of educational change either It looks critically and controversially at the social economic cultural and political forces that are driving educational change School leaders system administration teacher leaders consultants facilitators educational researchers staff developers and change agents of all kinds will find this book an indispensable resource for guiding them to both classic and cutting edge understandings of educational change no other work provides as comprehensive coverage of the field of educational change
